

CER Master's programme Crisis and Security Management 2023-2024

Adopted on 27 June 2023

COURSE AND EXAMINATION REGULATIONS

Valid from 1 September 2023

Master's programme Crisis and Security Management

These Course and Examination Regulations (henceforth OER) have been drawn up in accordance with the Higher Education and Research Act [*Wet op het hoger onderwijs en wetenschappelijk onderzoek*, WHW] (henceforth the Act) and the following Leiden University regulations:

- the Leiden Register of Study Programmes Framework Document
- the Academic Calendar
- the Regulations for Student Registration, Tuition Fees and Examination Fees
- the Regulations for Admission to Master's Programmes
- [the Online Proctoring Protocol](#)

The model OER are laid down in Dutch and then translated into English. In the event that there are differences between the two versions, the Dutch version will prevail.

Pursuant to Article 7.14 of the Act, the Faculty Board regularly evaluates the OER and considers, for the purpose of monitoring and –if necessary- adjusting the study load, how much time it takes students to comply. In accordance with Article 9.18 of the Act, the Programme Committee is assigned the task of annually assessing the implementation of the OER.

Chapter 1 **General Provisions**

Article 1.1 **Scope of the regulations**

These regulations apply to the teaching and examinations of the Master's programme Crisis and Security Management (CSM), henceforth referred to as the programme.

The programme is instituted in the Faculty of Governance and Global Affairs of Leiden University, henceforth referred to as the Faculty, and is taught in The Hague by the Institute of Security and Global Affairs.

Article 1.2 **Definitions**

In these regulations the following definitions apply:

- | | |
|------------------------------------|---|
| a. Board of Admissions | The Board established by the Faculty Board that has the duty of determining, with the application of the entry requirements referred to in Article 7.30b, (1) and (3) of the Act and the University Regulations for Admission to Master's Programmes, which applicants can be admitted to this Master's programme |
| b. Board of Examiners | The Board of Examiners for the programme, established and appointed by the Faculty Board in accordance with Article 7.12a of the Act |
| c. Component | One of the courses or practical assignments of the programme, as referred to in Article 7.3 of the Act. The study load of each component is expressed in whole credits. Each component is concluded with an examination. |
| d. Credit | The unit in EC that expresses the study load of a component as referred to in the Act. According to the ECTS, one credit equals 28 hours of study. |
| e. Degree classification | Further degree classification by the Board of Examiners |
| f. Digital teaching environment | A digital environment, such as Brightspace, in which students can work together, communicate and learn |
| g. ECTS | European Credit (Transfer System) |
| h. Education Administration Office | The office in the faculty where students can go for information and to register for courses (education information centre, service desk, OSC) |
| i. Prospectus | The digital prospectus containing specific and binding information about the programme: https://studiegids.universiteitleiden.nl/ . The |

- Prospectus constitutes an integral part of these regulations, and is included as an appendix.
- j. Enrolment protocol The enrolment protocol containing specific and binding information concerning enrolment in components, examinations, and final examinations, established by the Executive Board (<https://inschrijfprotocol.universiteitleiden.nl/>). The enrolment protocol constitutes an integral part of these regulations, and is included as an appendix.
- k. Examination
(*tentamen*) An inspection of the knowledge, understanding and skills of the student with respect to a particular component, and an assessment thereof (in accordance with Article 7.10 of the Act). The assessment can take place in written form, orally as well as digitally, or a combination of these methods. An examination may consist of several constituent examinations. Credits are only awarded for examinations passed. The inspection is conducted according to the method determined by the Board of the Examiners to assure the quality of examination and final examinations.
- l. Examiner The person appointed by the Board of Examiners to conduct examinations, in accordance with Article 7.12c of the Act
- m. Final examination
(*examen*) The examinations associated with the components belonging to the programme or the propaedeutic phase of the programme, including an investigation to be carried out by the Board of Examiners itself, as referred to in Article 7.10 (2) of the Act
- n. First/second reader The first or second examiner to read and assess the thesis/final paper/final report/final programme assignment. The first reader/reviewer is also the supervisor.
- o. Language of instruction The language of a programme, in which lectures and tutorials are given and examinations and final examinations are held
- p. Leiden Register of Study Programmes Register of the programmes offered by Leiden University, maintained under the supervision of the Executive Board, as referred to in Article 7 of the Management and Administration Regulations
- q. Level The level of a component according to the abstract structure as defined in the Leiden Register of Study Programmes Framework Document²
- r. Nominal duration of study The study load in years of study as established in the Central Register of Higher Education Programmes

² [Leiden Register of Study Programmes Framework Document](#)

- s. Portfolio A monitoring and assessment file with which students (1) demonstrate that they have achieved a sufficient level of academic education to be awarded the degree, (2) record their personal process of academic learning during the programme, and (3) receive appropriate supervision and study advice
- t. Practical assignment A practical assignment that contributes to an examination or final examination, as referred to in Article 7.13 (2) (d) of the Act, and takes one of the following forms:
- writing a thesis/final paper/final report/final programme assignment,
 - writing a paper or creating an artistic work,
 - carrying out a research assignment,
 - participating in fieldwork or an excursion,
 - completing an internship, or
 - participating in another educational activity aimed at acquiring particular skills
- u. Pre-master's programme Opportunity to compensate for deficiencies in the context of a failure to meet the entry requirements as referred to in Article 7.30e of the Act
- v. Programme The programme to which the OER relates: a coherent set of components, aimed at achieving clearly defined objectives relating to the knowledge, understanding and skills that a graduate of the programme is expected to have acquired. Each programme is concluded with a final examination.
- w. Student A person enrolled at Leiden University in order to follow the courses, and/or sit the examinations and final examinations of the programme
- x. The Act The Higher Education and Research Act [*Wet op het hoger onderwijs en wetenschappelijk onderzoek*, WHW]
- y. Working day Monday to Friday, excluding public holidays and the compulsory closure days specified by the Executive Board

All other terms have the meaning ascribed to them by the Act.

Article 1.3 **Codes of conduct**

1.3.1 The Leiden University Code of Conduct on Standards of Behaviour between Lecturers and Students is applicable.³ The aim of this code is to create a framework for a good, safe and stimulating

³[Leiden University Code of Conduct on Standards of Behaviour between Lecturers and Students](#)

work and study environment within Leiden University, in which teachers and students respect each other and in which mutual acceptance and trust are important values.

1.3.2. The Code of Conduct on Remote Teaching applies⁴; this provides guidelines for teaching and learning in digital environments, remote environments or any form of teaching that is primarily dependent on IT services.

1.3.3 The Leiden University Regulations on ICT and Internet Use are also applicable.⁵ These regulations define what is considered appropriate use of ICT and internet and how usage checks will be made. They also explain which conduct is not tolerated and the consequences that apply.

1.3.4 Furthermore, the following Faculty codes of conduct apply to the programme:

- [Code of Conduct Faculty of Governance and Global Affairs](#). This code of conduct consists of a number of core values in order to reach an honest, open, safe, and inspiring climate for study and work for all students and staff.

Chapter 2 Description of the Programme

Article 2.1 Objectives of the programme

The programme has the following objectives:

- The Master of Science programme in Crisis and Security Management is an academic programme that emphasizes the ability to understand and analytically apply multidisciplinary insights from Security Studies, Public Administration, Political Science, Law, International Relations and other disciplines to challenges of crisis and security management.

The programme aims to educate students to become academically trained, reflective security and crisis professionals in a broad sense. It aims to teach students to develop a critical attitude, adopt a perspective of scholarly independence and a high level of self-directed and autonomous learning and functioning.

The programme strives to convey both general knowledge of the core themes and approaches in crisis and security management and specialized knowledge on the governance of radicalism, extremism and terrorism, the governance of crisis, cybersecurity governance, intelligence and national security, war and peace and governance of violence. Furthermore, the programme emphasizes the ability to reflect on the ethical and normative dimensions of crisis and security management and their consequences for the behavior of government officials, agencies, actors in civil society and private sector.

The graduate is thus capable of recognizing and analysing a broad range of complex and wicked problems in the domain of crisis and security management, both at the local, the national and the international level. The graduate is able to undertake independent research at graduate level, applying a broad range of theoretical and analytical approaches relevant to crisis and security management.

Article 2.2 Specialisations

⁴ [Code of Conduct on Remote Teaching](#)

⁵ [Leiden University Regulations on ICT and Internet Use](#)

The programme Crisis and Security Management has the following specialisations:

- Governance of Crisis
- Governance of Radicalism, Extremism and Terrorism
- Cybersecurity Governance
- Intelligence and National Security
- War and Peace Studies
- Governance of Violence

Article 2.3 **Learning outcomes**

Graduates of the programme have attained the following learning outcomes, listed according to the Dublin descriptors:

INTENDED LEARNING OUTCOMES
Knowledge and understanding
<p>Graduates have acquired advanced knowledge and understanding of:</p> <ol style="list-style-type: none"> 1. the body of literature in the field of crisis governance and security studies, combined with in-depth knowledge on the topic of their specialisation tracks (crisis; radicalism, terrorism & extremism; cybersecurity; intelligence; war & peace; violence) 2. the societal, political, and administrative dynamics of crisis and security issues at the local, national, and international level. 3. the distinctive nature of governance of crisis and security challenges, including the functioning of relevant stakeholders in a multi-actor and multi-level context. 4. the principles of academic research, with awareness about the main designs and methodological approaches commonly used in, depending on the specialisation of the respective tracks.
Applying knowledge and understanding
<p>Graduates are able to independently:</p> <ol style="list-style-type: none"> 5. define and analyse challenges in the field of crisis governance and security studies, as well as applying the concepts of security and crisis as a political, social, and mental construction. 6. discuss the main challenges and opportunities that relevant stakeholders in the field of crisis and security are confronted with in a multi-actor and multi-level context. 7. identify and analyse new developments and phenomena in the domain of their specialisation track. 8. identify and apply relevant theoretical frameworks and methodologies to analyse real life crisis and security cases in a conceptually and methodological rigorous manner.
Making judgements
<p>Graduates are able to:</p> <ol style="list-style-type: none"> 9. critically evaluate research on crisis and security related issues from a conceptual, theoretical, and methodological viewpoint. 10. draw conclusions, make judgments and/or provide solutions to real-life societal issues based on empirical data, balanced argumentation, and sound methodologies in the specific context of crisis and security research.

11. reflect on relevant normative and ethical issues, side effects, and unintended consequences of the governance of crisis and security issues, within the framework of democracy and the rule of law.
12. critically evaluate the effect of the social, political, and administrative context and complexity on the perception of crisis and security issues.
13. seek evidence and draw from empirical or theoretical materials for an informed (and, when applicable, critical) judgement.

Communication

Graduates are able to:

14. to present results of an academic research project in the field of study of the governance and management of crises and security issues.
15. present arguments and analyses in a format appropriate for a broader professional audience and as input to expert groups.
16. provide strategic analysis and advice to decision-makers.
17. build, present and defend well-grounded arguments in oral communication on site.
18. are able to engage in public debates on site about the issues related to (the study of) crises and security.

learning skills

Graduates:

19. stay informed about current developments in the area of expertise, including the challenges and opportunities of new technological advancements.
20. reflect upon one's own academic and professional skills and conduct
21. are aware of the importance of transferable skills and the ability to reflect upon one's own transferable skills.
22. are aware of the challenges of functioning in a complex (international) academic or professional environment in a research, advisory or executive position.
23. are aware of the challenges of functioning in (multi-disciplinary and/or multicultural) teams.
24. have an attitude aimed at a high level of self-directed and autonomous learning and functioning.

Article 2.4 Structure of the programme

The programme offers full-time tuition only.

The programme is offered as a daytime programme.

The nominal duration of the programme is 1 year.

Article 2.5 Study load

The programme has a study load of 60 ECTS credits.

Article 2.6 Start of the programme; uniform structure of the academic year

The programme starts on 1 September and on 1 February of each year. In terms of regular courses, the programme is based on the university semester system and comprises 42 teaching weeks.

Article 2.7 **Final examinations of the programme**

The programme is concluded with a master's final examination.

Article 2.8 **Language of instruction**

2.8.1 Subject to the Code of Conduct on the Language of Instruction and Examination, the language(s) in which the instruction is given is English, and the language in which the examinations and final examinations are held is: English. Students are expected to have an adequate command of the language(s) of instruction and examination in the programme, in accordance with the requirements stated in Article 5.2.3. As appropriate, the Faculty publishes OER in English for English-taught programmes.

2.8.2 Contrary to Article 2.8.1, in individual cases the Board of Examiners can permit the student to write the final thesis in another language, in accordance with the Guideline on Language Policy.⁶

Article 2.9 **Quality**

The programme is accredited by NVAO⁷ and meets the national and international quality requirements for degree programmes. The programme's teaching also meets the quality standards for teaching set out in the Leiden Register of Study Programmes Framework Document.

Chapter 3 **Curriculum**

Article 3.0 **Exceptions due to *force majeure* situations**

3.0.1 If it is not possible, in the event of a crisis as defined in Article 1 of the Leiden University Regulations on Crisis Management Coordination, or other *force majeure* circumstances, such as coronavirus measures, to provide or take part in components as set out in the OER or the Prospectus, changes will be announced by the authorised body in due time via Brightspace.

Article 3.1 **Compulsory components**

3.1.1 The programme includes compulsory components worth a total study load of 60 ECTS credits. These compulsory components include the set components from which students are obliged to choose.

3.1.2 The Prospectus further specifies the actual structure of the programme, the study load, level,⁸ content, method of examination, and structure of the components of the curriculum.

3.1.3 If a large difference exists between the expected and actual enrolment of students in a component, the programme director in consultation with the programme committee can decide to change the format of teaching methods and assessment.

⁶ [Guideline on Language Policy](#)

⁷ The Accreditation Organisation of the Netherlands and Flanders.

⁸ In accordance with the 'abstract structure', as described in the Framework Document of the Leiden University Register of Study Programmes.

Article 3.2 **Optional components**

3.2.1 In addition to the components referred in 3.1.1, the student selects components worth a total study load of 0 ECTS.

3.2.2 The Board of Examiners must approve the student's selection of components.

3.2.3 In addition to the components taught at this university, and subject to the approval of the Board of Examiners, students may also select components offered by other Dutch or foreign universities, or components offered by another legal entity offering accredited undergraduate higher education programmes.

3.2.4 Students who are enrolled in the programme may assemble their own curriculum of components that are taught by an institution, as long as these are concluded with a final examination. They will require the permission of the most appropriate Board of Examiners. When granting such permission, the Board of Examiners also indicates to which University programme the curriculum is considered to belong.⁹ If necessary, the Executive Board designates a Board of Examiners to take this decision.

Article 3.3 **Practical assignments**

3.3.1 For each component, the Prospectus specifies which practical assignments are included, the nature and scope of the student's workload for these practical assignments and whether participation in these is a condition of admission to (other parts of) the examination. The Board of Examiners may exempt students from a practical assignment, in which case the Board can choose to apply alternative conditions.

3.3.2 The Prospectus specifies the scope and study load of the thesis/final paper/final report/final programme assignment, including the requirements that the final thesis/final paper/final report/final programme assignment must meet.

Article 3.4 **Sitting examinations and taking part in components**

3.4.1 **Taking part in components**

3.4.1.1 Students must register for the component according to the applicable enrolment protocol.¹⁰ Registration is possible up to fourteen calendar days before the start of the component, as stipulated in the Prospectus. This means that the student registers for a component in MyStudymap, ticking the activities the student wants to take part in (lecture, tutorial, practical exercise and examination).

3.4.1.1a Within the meaning of article 3.4.1.1, first-year Bachelor students are automatically assigned to and enrolled for all components of the first semester, or, with certain programmes for all components of the entire academic year, by the education administration office of their programme.

⁹ In accordance with Article 7.3h of the WHW ('free curriculum in higher education').

¹⁰ Course and examination enrolment-Leiden University.

3.4.1.2 In the case of a component with restrictions on the number of participants, participation takes place in order of enrolment. For students enrolled in the programme, timely enrolment guarantees placement in the components that form part of the mandatory curriculum of the programme.

3.4.1.3 Contrary to Article 3.4.1.1, a different enrolment period may apply to certain components, if approved by the Faculty Board. The relevant components and the corresponding enrolment term can be found in the Prospectus.

3.4.1.4 Students who have not enrolled on time can report to the Education Administration Office of the faculty of which the study programme is part. The relevant enrolment protocol lists the circumstances on the basis of which students may be enrolled contrary to Article 3.4.1.1.

3.4.2 Sitting examinations and constituent examinations.

3.4.2.1 When registering for the component, the student registers for the corresponding examination. Registration for the examination takes place in accordance with the provisions of Article 3.4.1.1.

3.4.2.2 Students who do not register for the component may register only for the examination or constituent examination. To be allowed to sit the examination or constituent examination, a confirmation of registration for the examination is required.

3.4.2.3 In order to sit the examination, students must confirm their participation. They can only sit an examination once confirmation of participation has been given.

3.4.2.4 Students will receive a notification in due time asking them to confirm or cancel their participation. Confirmation of participation in an examination is possible up to ten calendar days before the examination takes place.

3.4.2.5 Students who have not enrolled on time according to the applicable enrolment protocol may report to the Education Administration Office of the faculty of which the programme forms part.

3.4.2.6 A different term applies for the situation as referred to in Article 4.6.2; in this case, students can register up to five calendar days before the examination takes place.

Article 3.5 Distribution of study materials

3.5.1 Students are not permitted to take photographs or make audio or video recordings of lectures or education-related meetings, including the feedback sessions after examinations (including examination assignments and model answers), without the explicit prior permission of the relevant lecturer. Should such permission be granted, students are only legally permitted to use the photograph or recording for their own use; all forms of distribution or publication of the photograph or recording are prohibited. A student has no independent control over these materials, unless the University has explicitly granted this to the student.

3.5.2 Students are prohibited from all forms of distribution or publication of study materials. The materials are for students' own use only.

3.5.3 Students are prohibited from infringing the intellectual property rights of the University, third parties or the person with whom licensing agreements were made.

Chapter 4 Examinations, Final Examinations and Further Education

Article 4.0 Exceptions due to coronavirus measures

4.0.1 If it is not possible, in the event of a crisis as defined in Article 1 of the Leiden University Regulations on Crisis Management Coordination, or other *force majeure* circumstances, such as corona measures, to offer examinations and final examinations in the form and at the point in time set out in the OER or the Prospectus, changes will be announced by the authorised body in due time via Brightspace.

Article 4.1 Frequency of examinations

4.1.1 Examinations are held twice during the academic year for each component offered in that academic year. The Board of Examiners determines the manner of resit for practical assignments.

4.1.2 The Faculty Board is responsible for the practical organisation of the examinations and final examinations and ensures, if necessary by means of invigilation, that the examinations and examinations proceed properly. If online proctoring is used, this is done according to the [Online Proctoring Protocol](#).

4.1.3 *[not applicable]*

4.1.4 If the grade for a component results from several constituent examinations, it is possible to vary from the number of examinations and resits as referred to in 4.1.1, on the understanding that students are given the opportunity to resit and pass the component by taking an examination that is representative of the component. If applicable, this is specified in the Prospectus.

4.1.5 In accordance with Article 7.13 (2) (h) of the Act, the Prospectus specifies the dates of the examinations.

4.1.6 The Board of Examiners may set certain rules for taking the resit. These rules are specified in the Rules and Regulations of the Board of Examiners.

4.1.7 At a student's request the Board of Examiners may in exceptional circumstances diverge from the provisions of Article 4.1.1 and allow an additional resit.

4.1.8 During a master's programme, students may resit one examination that they passed, without prejudice to the power of the Board of Examiners to deviate from this stipulation in exceptional cases and at the student's request. This only applies if the resit takes place in the same academic year as the original examination. In the event of such a one-time resit, the highest result obtained applies. The examination referred to in the first sentence may consist of a number of constituent examinations. Registration for this examination should take place in accordance with Articles 3.4.1.1 and 3.4.2.2.

4.1.9 The following are excluded from the resit option as referred to in Article 4.1.8:

- Oral examinations
- Practical assignments
- Examinations that the student passed at a different institution than Leiden University

4.1.10 If a component is included in multiple programmes, the student is only granted one opportunity to resit an examination that they previously passed for this component.

Article 4.2 **Obligatory sequence**

4.2.1 The Prospectus specifies the sequence in which examinations must be taken. Students may only sit examinations that are subject to a compulsory sequence once they have passed the examinations for one or more other components.

4.2.2 For the components and their attendant examinations which must be completed in a given sequence, the Board of Examiners may in special cases, and following a substantiated written request by the student, agree to an alternative sequence.

Article 4.3 **Form of examination**

4.3.1

The Prospectus states whether the examination or constituent examinations for a component take the form of a written, digital or oral examination, or a combination of these.

4.3.2 The procedure during examinations and the guidelines and instructions, as referred to in Article 7.12b (1) (b) of the Act, for assessing and establishing the results of examinations and final examinations are described in the 'Rules and Regulations of the Board of Examiners'.

4.3.3 Students with a disability or chronic medical condition are given the opportunity to apply for individual examination arrangements adjusted to their particular disability or condition. These arrangements may not affect the quality or level of difficulty of the examination. If necessary, the Board of Examiners seeks expert advice, as referred to in the Protocol on Studying with a Disability,¹¹ before reaching a decision.

4.3.4 In special cases, the Board of Examiners may, at the request of the student and within the scope of the OER, permit a student to sit an examination in another manner than specified in the Prospectus.

4.3.5 Examinations are held in the language(s) of instruction for this programme that are specified in the OER. At the request of the student, the Board of Examiners may permit a student to sit an examination in another language.

4.3.6 The completion of the portfolio is specified in the prospectus.

Article 4.4 **Oral examinations**

¹¹ [Protocol on Studying with a Disability](#)

4.4.1 Students take oral examinations individually, unless the Board of Examiners decides otherwise.

4.4.2 Oral examinations are public, unless the Board of Examiners or the examiner concerned decides otherwise owing to special circumstances, or unless the student has reservations.

Article 4.5 **Rules and Regulations of the Board of Examiners**

4.5.1 In accordance with Article 7.12b (3) of the Act, the Board of Examiners establishes rules concerning the performance of its tasks and responsibilities and the measures it can take in the event of fraud.

4.5.2 The Board of Examiners is responsible for ensuring that the right of students to appeal against decisions of the Board of Examiners or the examiners is guaranteed.

Article 4.6 **Assessment**

4.6.1 The examiner determines the grade immediately after an oral examination has been conducted. The student receives a message about the grade via the University study progress system.

4.6.2 The examiner determines the grade of any written or other form of examination or constituent examination within fifteen working days of the day on which the examination or constituent examination was held. The result is notified to the student within the same fifteen working days. The final grade is recorded in the University study progress system, and the student receives a message about it via that system. The student will be informed of the result at least five working days before the next opportunity to resit the relevant examination. If this deadline is not met, the resit can be postponed.

4.6.3 If the examiner is unable to comply with the periods of fifteen and five working days respectively, as specified in Article 4.6.2, the student is notified accordingly in a message sent to the student's u-mail address before this term expires. This message includes the (latest) date by which the student will be informed of the result.

4.6.4 The examination result (the final calculated grade of a component) is expressed as a whole number or a number to a maximum of one decimal place, between and including 1.0 and 10.0 (rounded to .0 or .5). The result of the examination is not expressed as a number between 5.0 and 6.0.

4.6.5 The examination result is considered to be a pass if it is 6.0 or higher.

4.6.6 If students must complete a practical assignment to be permitted to sit an examination, the Board of Examiners may decide that students have sat the examination once they have passed the practical assignments.

4.6.7 Together with the written or electronic notification of examination results, students are also informed of their right to inspect their graded examination papers, as referred to in Article 4.8, as well as of the appeals procedure.

4.6.8 The Board of Examiners may draw up rules that specify under which conditions it may exercise its power as specified in Article 7.12b (3) of the Act to determine that students do not have to

pass every examination and/or under which conditions the results of partial examinations can compensate each other within a component. These rules are specified in the Rules and Regulations of the Board of Examiners.

Article 4.7 **Period of validity of examinations**

4.7.1 The Faculty Board may limit the validity of an examination pass, subject to the authority of the Board of Examiners to extend the period of validity in individual cases. The period of validity of an examination pass may only be limited if the examined knowledge, understanding or skills are demonstrably outdated.

4.7.2 The Board of Examiners may, in accordance with the criteria specified in the Rules and Regulations and at the request of the student, extend the validity of examinations for a period to be specified by the Board itself. In the event of special circumstances in the sense of Article 7.51 (2) of the Act the Board of Examiners will act in accordance with the pertinent provisions in Article 7.10 (4) of the Act.

4.7.3 The validity period referred to in 4.7.1 starts on 1 September of the academic year following that in which the grade was obtained or the exemption granted.

Article 4.8 **Inspection and feedback session**

4.8.1 Students are entitled to inspect and receive feedback on their graded examination within a maximum period of 30 calendar days following the publication of the results of a written or digital examination, and in any case before the resit takes place

4.8.2 During the period referred to in 4.8.1, students may inspect the examination questions and assignments, as well as the grading schemes used to grade the examination.

4.8.3 The time and manner of the inspection and feedback session on the examination are specified in the Prospectus or the digital teaching environment.

4.8.4 The Board of Examiners is authorised to decide whether the inspection of the examination paper and the feedback session are to be collective or individual.

4.8.5 The examiner determines where and when the inspection of the examination paper and the feedback session will take place.

4.8.6 Students who are unable to attend the feedback session due to demonstrable circumstances beyond their control are granted another opportunity, if possible within the period referred to in 4.8.1.

Article 4.9 **Exemption from examinations and/or practical assignments**

At the student's request and after consultation with the examiner in question, the Board of Examiners may grant the student exemption from one or more examinations or practical assignments if the student:

- has completed a component at a research university or university of applied sciences that is similar in content and level to the component for which the student is requesting exemption, or
- has demonstrated, through relevant work or professional experience, that they have acquired sufficient skills and knowledge in relation to the component in question.

Article 4.10 **Final examination**

4.10.1 The Board of Examiners awards a degree certificate when there is sufficient proof that the final examination has been passed.

4.10.2 As part of the final examination, the Board of Examiners is entitled to conduct its own evaluation of the knowledge, understanding and skills of the examination candidate and assess the results.

4.10.3 The degree is only conferred once the Executive Board has declared that all procedural requirements (including the requirement to pay tuition fees) have been met. One degree certificate is awarded for each programme. The degree certificate states that the programme or specialisation was delivered by Leiden University.

4.10.4 Pursuant to the regulations referred to in Article 7.11 (3) of the Act, a student who is entitled to graduate may ask the Board of Examiners to postpone graduation, as long as the student has not exceeded the maximum period of enrolment of the nominal study duration plus one academic year for the programme in question.

4.10.5 This request must be submitted within five working days of the student receiving notification of their final examination results. In the request the student must indicate when they wish to receive the degree certificate.

4.10.6 The Board of Examiners may also approve the request if refusing it would result in a considerable injustice.

4.10.7 A supplement in Dutch and/or in English that conforms to the standard European Diploma Supplement format, including the grading table applicable for the degree programme, is attached to the degree certificate. In addition to the degree certificate, students are issued with a translation of the degree certificate and a certificate in Latin.

Article 4.11 **The degree**

4.11.1 The degree of Master of Science is awarded to those who have passed the final examination of the programme.

4.11.2 The degree certificate specifies which degree has been awarded.

Article 4.12 **Degree classification**

4.12.1 The student is awarded a degree classification for the final examination.

4.12.2 The final degree classification is based on the weighted average of the grades obtained for all examinations that form part of the final examination, with the exception of the components for which an exemption was granted or for which the student only obtained a proof of attendance. Components completed from other programmes, including components followed abroad, must be approved by the Board of Examiners.

4.12.3 The weighted average of all grades is determined by multiplying the number of ECTS credits for each component by the grade awarded for this component, adding these together and then dividing the result by the number of credits earned.

4.12.4 Without prejudice to the provisions of 4.12.6 and 4.12.7, the degree certificate and diploma supplement include the 'cum laude' classification if the following conditions are met for the full-time programmes:

- the unrounded weighted average for all components is 8.0 or higher
- the grade for the final assignment of the master's programme is 8.0 or higher
- the examination was passed within the nominal duration of study + 1 year
- All assignments that are part of the portfolio have been completed with a minimum grade of 7.0.

The Board of Examiners sets corresponding conditions for part-time programmes, proportionate to the nominal duration of the study programme.

4.12.5 Without prejudice to the provisions of 4.12.6 and 4.12.7, the degree certificate and the diploma supplement include the 'summa cum laude' classification if the following conditions are met for the full-time programmes:

- the unrounded weighted average for all components is 9.0 or higher
- the grade for the final assignment of the master's programme is 9.0 or higher
- the examination has been passed within the nominal duration of study
- All assignments that are part of the portfolio have been completed with a minimum grade of 8.0.

The Board of Examiners sets corresponding conditions for part-time programmes, proportionate to the nominal duration of the study programme.

4.12.6 The Board of Examiners may also decide to award a distinction in other, exceptional cases, on the condition that the weighted average grade does not differ by more than 0.5 from the grades stipulated in the fourth and fifth paragraphs above. This may involve such considerations as the student's development throughout the study programme, any exceptional performances on the part of the student in completing the final paper or thesis and any other relevant exceptional circumstances.

4.12.7 If a student has been subject to a disciplinary measure as a result of irregularity, fraud or plagiarism, as set out in the Rules and Regulations, he or she is not awarded a distinction, unless the Board of Examiners decides otherwise.

Article 4.13 **Further education**

The degree awarded grants the holder access to a PhD programme.

Chapter 5 Admission to the programme as of September 2024 or February 2025

Article 5.1 Confirmation of admission

5.1.1 The Faculty Board provides confirmation of admission if the student meets the entry requirements specified in Articles 5.2 and 5.3. If the Executive Board has determined a maximum number of students for the programme, a confirmation of admission will be issued if the student meets the entry requirements and this maximum number is not exceeded.

5.1.2 Confirmation of admission must be requested according to the rules set out in the Regulations for Admission to Master's Programmes.¹²

Article 5.2 Admission to the programme

5.2.1 Holders of one of the following degrees may be admitted to the programme (Article 7.30b (1) of the Act):

- a. a bachelor's degree in Security Studies, Public Administration, Political Science or International Relations from a recognized research university
- b. A bachelor's degree from an accredited research university provided the student has at least 30 ECTS obtained from courses in the fields of governance, crisis or security related knowledge and 20 ECTS related to empirical research skills in social sciences or similar empirical research skills¹³.
- c. A bachelor's degree in Safety and Security Management Studies (SSMS) from The Hague University of Applied Science, provided that the language requirements established in article 5.2.3 are met, with at least a minimum GPA of 7.5 for all the following courses combined:
 - Year 2
 - Safety Risk Management
 - International Relations and Geopolitics
 - National Security Systems
 - Managing International Conflict
 - Year 3
 - Interorganisational Cooperation
 - Rethinking Safety and Security
 - Thesis Research Skills
 - Thesis Research TutorialAnd minimum grade of 7.5 for each of the following elements:
 - Written Thesis (Year 4)
 - Thesis Defence (Year 4)

¹²[Regulations for Admission to Master's Programmes](#)

¹³ Please note that ECTS obtained for a thesis are only considered when it concerns an empirical research project in the social sciences.

5.2.2 Any person who fails to meet the degree requirements or prescribed pre-master's requirement referred to in 5.2.1 may submit a request to the Board of Admissions. The Board of Admissions assesses whether the applicant may be granted admission to the programme.

To this end, the Board of Admissions assesses whether the applicant possesses sufficient knowledge, understanding and skills at the same level as a bachelor's degree or related bachelor's degree as referred to in 5.2.1 (a) and (b) or whether they meet this conditions once additional requirements have been met.

The Board of Admissions assesses, where relevant, whether the applicant meets the qualitative selection requirements referred to in 5.2.4.

Article 5.2.3 **Dutch and English languages**

5.2.3.1 As further clarification of Article 2.8 concerning command of the language of instruction, a student who wishes to be admitted to an English-taught master's programme must have one of the following diplomas or must meet the criteria of:

- An International Baccalaureate diploma from a programme taught in English (or an IB diploma with English A)
- A diploma of secondary or higher education completed in Australia, Canada (with the exception of French taught programmes in Canada), Germany, Ireland, Malta, New Zealand, Singapore, the United Kingdom, the United States or South Africa
- A diploma of an English-taught university degree programme completed at a Dutch research university
- A pre-university education (VWO) diploma
- A bachelors' or masters' diploma from a Dutch university of applied sciences of an English taught programme if all instruction and examinations were held in English.

5.2.3.2 If a student who wishes to be admitted does not meet the requirements in 5.2.3.1, at least one of the following language requirements can be set:

- IELTS 6.5, where each separate constituent score must be at least 6.0;
- TOEFL (internet-based) 90, where each separate constituent score must be at least 20.¹⁴
- CPE or CAE 180.

At the time when the student applies for the programme, the test must have been taken no more than two calendar years previously.

5.2.3.3 As further clarification of Article 2.8 concerning command of the language of instruction, a student whose native language is not Dutch and who wishes to be admitted to a Dutch-taught master's programme must have passed *TUL-halfgevorderd* or Staatsexamen Nt2 Programma. The TUL examinations is organised by the Leiden University.

A Dutch as a Second Language Certificate (*Certificaat Nederlands als Vreemde Taal*) at *Educatief Startbekwaam* or *Educatief Professioneel* level is also sufficient to meet the language requirement. The above does not apply for students whose native language is not Dutch but who have completed a study programme in pre-university or higher education in Dutch.

5.2.3.4 [not applicable].

¹⁴ See also the comparison table: [english-test-equivalencies.pdf](#) ([universiteitleiden.nl](#))

Article 5.2.4 Qualitative admission requirements (selection requirements)

5.2.4.1 [not applicable].

Article 5.2.5 Capacity limitation

[not applicable].

Article 5.3 Deficiencies

5.3.1 Holders of a bachelor's degree from a research university, a related university bachelor's diploma as referred to in 5.2.1, point b or an equivalent diploma with a maximum of 1 ECTS of deficiencies, may be admitted to the programme, as long as it may reasonably be expected that they will meet the entry requirements within a reasonable period of time.

5.3.2 Students who still have the deficiencies referred to in 5.3.1 when admitted to the programme may participate in the programme but may not sit a final examination or any examinations that the Faculty Board has specified in its decision to grant admission.

5.3.3 For the admission referred to in 5.3.1 the Board of Admissions assembles a catch-up programme with examination opportunities.

5.3.4 If students are admitted to the programme on the basis of 5.3.1 and must sit examinations to meet the entry requirements, these are not considered part of the curriculum of the master's programme.

5.3.5 Holders of a bachelor's degree from a research university as referred to in 5.2.1, point b [or an equivalent diploma] with a maximum of 5 ECTS of deficiencies, can eliminate their deficiencies in the curriculum by showing, by means of a placement letter, relevant knowledge with their extracurricular courses as shown on the below table.

Governance, crisis and security related knowledge	At least 30 ECTS obtained at a recognized research university in courses in the field of governance, crisis or security knowledge.	If you do not meet the requirements specified in the cell to the left, and your deficiency is a maximum of 5 ECTS, this can be bridged by doing 3 MOOCS on governance, crisis and/or security by a recognized research university. Official certificates must be obtained for these courses. Examples are: MOOCS related terrorism studies, crisis governance, cybersecurity governance, and risk in a modern society, etc.
--	--	---

Empirical research skills in social sciences	At least 20 ECTS of the course curriculum at a recognized research university is related to empirical research skills in social sciences.	If you do not meet the requirements specified in the cell to the left, and your deficiency is a maximum of 5 ECTS, this can be bridged by doing 3 MOOCS on empirical research skills in social science by a recognized research university. Official certificates must be obtained for these courses. Examples are: MOOCS related to quantitative research methods, qualitative research methods, research design, social science methods, etc.
---	---	---

Article 5.4 **Pre-master's programmes**

[not applicable]

Chapter 6 Student Counselling and Study Advice

Article 6.1 **Study progress administration**

6.1.1 The Faculty Board keeps records of the results achieved by individual students.

6.1.2 Students may inspect their results in the study progress system at any time.

Article 6.2 **Introduction and student counselling**

The programme is responsible for the introduction and student counselling.

Article 6.3 **Supervision of the thesis/final paper/final report/final programme assignment**

6.3.1 Students receive feedback during the programme about the individual components to be included in the portfolio as referred to in 3.3.2. The feedback that students receive is present in both the feedback given on the assignments as well as in the consolidated reflection report prepared by each student.

6.3.2 The consolidated reflection report of the student as referred to in 6.3.1. is prepared using the previously prepared interim reflection papers. This consolidated reflection report is based on the study load for this component, as specified in the Prospectus.

Article 6.4 **Top-level sport**

Students who engage in top-level sport at a professional level are given the opportunity to adjust their study programme to their sporting activities wherever possible. The programme determines who falls within this category in line with the guidelines set out in Section III of the Regulations on Financial Support for Students, drawn up by the Executive Board.

Article 6.5 **Disability or chronic medical condition**

Where possible, students with a disability or chronic medical condition are given the opportunity to adjust their study programme to the limitations resulting from their disability or chronic medical condition. The study programme can be adjusted to the individual disability or chronic medical condition of the student in question, but this must not affect the quality or level of difficulty of the components or the final examination curriculum itself.¹⁵

Article 6.7 **Study and internships abroad**

Special measures will be taken for students who suffer from a demonstrable delay in their studies as a result of study or an internship abroad that has been approved by the Board of Examiners, in order to limit the delay.

Chapter 7 Evaluation of the Programme

Article 7.1 **Evaluation of the programme**

The education in the programme is evaluated as follows:

- Students fill out a questionnaire upon completion of each component of the programme. The Programme Committee receives the outcome of the course evaluations (student questionnaires) directly from the faculty bureau. The Programme Committee discusses the outcomes of the evaluations with the programme director. The committee advises the Programme Director on measures for quality improvement.
- Upon completion of their programme, students fill out a questionnaire on general aspects of the programme. The Programme Committee receives the outcome of the programme evaluations (student questionnaires) directly from the faculty bureau. The Programme committee discusses the outcomes of the evaluations with the programme director. The committee advises the Programme Director on measures for quality improvement.
- The results of both questionnaires will also be processed in a longitudinal overview and it will be discussed during regular meetings with teachers.

The Programme Board/Programme Director will inform the Programme Committee about the outcomes of the evaluation.

Chapter 8 Final Provisions

Article 8.1 **Amendments**

8.1.1 Amendments to these regulations are adopted by a separate order of the Faculty Board, with the prior consent of the Faculty Council or the Programme Committee, depending on the topics concerned.

8.1.2 Amendments to these regulations which apply to a particular academic year must be adopted before the start of that year and published in the prescribed manner, unless earlier implementation of an amendment to the regulations is strictly necessary and, in all reasonableness, does not harm the students' interests.

¹⁵[Protocol on Studying with a Disability](#)

8.1.3 Amendments to these regulations may not adversely affect any prior decision pertaining to students taken by the Board of Examiners on the basis of these regulations.

Article 8.2 **Publication**

The Faculty Board or Programme Board is responsible for publishing these regulations, the Rules and Regulations established by the Board of Examiners, and any amendments to these documents via the University website.

Article 8.3 **Term of application**

The Course and Examination Regulations apply for the duration of one academic year.

Article 8.4 **Entry into force**

These regulations enter into force on 1 September 2023.
