

COURSE AND EXAMINATION REGULATIONS

Master's programme in Cyber Security.

These Course and Examination Regulations (henceforth OER) have been drawn up in accordance with the Higher Education and Research Act [*Wet op het hoger onderwijs en wetenschappelijk onderzoek*; WHW] (henceforth the Act) and the following Leiden University regulations:

- the Leiden Register of Study Programmes Framework Document;
- the Academic Calendar;
- the Regulations for Student Registration;
- the Regulations for Admission to Master's Programmes.

Pursuant to Article 7.14 of the Act, the Faculty Board regularly evaluates the OER and considers, for the purpose of monitoring and adjusting the study load, how much time it takes students to comply. In accordance with Article 9.18 of the Act, the departmental committee is assigned the task of annually assessing the implementation of the OER

Chapter 1 General Provisions

Article 1.1 Scope of the regulations

These regulations apply to the teaching and examinations of the Master's programme Cyber Security, henceforth referred to as the programme.

The programme is instituted in the Faculty of Governance and Global Affairs of Leiden University, hereinafter referred to as: the Faculty, and is taught in The Hague by the Institute of Security and Global Affairs.

Article 1.2 Definitions

In these regulations the following definitions apply:

- a. Board of Admissions: the Board established by the Faculty Board that has the duty of determining, with the application of the entry requirements referred to in Article 7.30b, (1) and (3) of the Act and the University Regulations for Admission to Master's Programmes, which applicants can be admitted to this Master's programme;
- b. Board of Examiners: the Board of Examiners for the programme, established and appointed by the Faculty Board in accordance with Article 7.12a of the Act;
- c. component: a unit of study in the programme, as defined in Article 7.3 of the Act. The study load of each component is expressed in whole credits. Each component is associated with an examination;
- d. credit: the unit in EC that expresses the study load of a component as referred to in the Act. According to the ECTS, one credit equals 28 hours of study;
- e. degree classification: further degree classification by the Board of Examiners;
- f. ECTS: European Credit (Transfer System);
- g. e-Prospectus: the electronic prospectus containing specific and binding information about the programme. The e-Prospectus is included as an attachment to these regulations;
- h. examination: an inspection of the knowledge, understanding and skills of the student with respect to a particular component, and an assessment thereof (in accordance with Article 7.10 of the Act). An examination may consist of several constituent examinations. The inspection is conducted according to the method determined by the Board of the Examiners to assure the quality of examination;
- i. examiner: the person appointed by the Board of Examiners to conduct examinations, in accordance with Article 7.12c of the Act;

- j. final examination: the examinations associated with the components belonging to the programme or the propaedeutic phase of the programme, including an investigation to be carried out by the Board of Examiners itself, as referred to in Article 7.10 of the Act;
- k. first/second reader the first or second examiner to read and assess the thesis/final paper/final report. The first reader/reviewer is also the supervisor;
- l. Leiden Register of Study Programmes register of the programmes offered by Leiden University, maintained under the supervision of the Executive Board, as referred to in Article 7 of the Executive and Management Regulations;
- m. level: the level of a component according to the abstract structure as defined in the Leiden Register of Study Programmes Framework Document¹;
- n. nominal duration of study the study load in years of study as established in the Central Register of Higher Education Programmes;
- o. portfolio: a monitoring and assessment file with which students (1) demonstrate that they have achieved a sufficient level of academic education to be awarded the degree; (2) record their personal process of academic learning during the programme; and (3) receive appropriate supervision and study advice;
- p. practical: a practical assignment that contributes to an examination or final examination, as referred to in Article 7.13 (2) (d) of the Act, that takes one of the following forms:
- writing a thesis/final paper/final report,
 - writing a paper or creating an artistic work,
 - carrying out a research assignment,
 - participating in fieldwork or an excursion,
 - completing an internship, or
 - participating in another educational activity aimed at acquiring particular skills;
- q. programme: the programme to which the OER relates: a coherent set of components, aimed at achieving clearly defined objectives relating to the knowledge, understanding and skills that a graduate of the programme is expected to have acquired. Each programme is associated with a final examination;
- r. student: a person enrolled at Leiden University in order to follow the courses, and/or sit the examinations and final examinations associated with the programme;

¹ [Leiden Register of Study Programmes Framework Document](#)

- s. the Act: the Higher Education and Research Act [*Wet op het hoger onderwijs en wetenschappelijk onderzoek*; WHW];
- t. working day: Monday to Friday, excluding public holidays and the compulsory closure days specified by the Executive Board;

The other definitions have the meaning that the Act ascribes them.

Article 1.3 **Codes of conduct**

1.3.1 The Leiden University Code of Conduct on Standards of Behaviour between Lecturers and Students is applicable.² The aim of this code is to create a framework for a good, safe and stimulating work and study environment within Leiden University, in which teachers and students respect each other and in which mutual acceptance and trust are important values.

1.3.2. The Leiden University Regulations on ICT and Internet Use are also applicable.³ These regulations define what is considered appropriate use of ICT and internet and how usage checks will be made. They also explain which conduct is not tolerated and the consequences that apply.

1.3.3 Furthermore, the following Faculty codes of conduct apply to the programme:

- Code of Conduct Faculty of Governance and Global Affairs.⁴

Chapter 2 **Description of the Programme**

Article 2.1 **Objectives of the programme**

The programme has the following objectives:

- The programme aims to educate professionals with an MA degree and several years of work experience to become professionals with an integral outlook on cyber security. They will be able to identify a variety of theoretical frameworks and approaches suitable for addressing cyber security issues, and to select the appropriate ones that can contribute to strategic solutions for cyber risks (in order to reduce these to acceptable levels) and related issues. They understand which additional expertise should be invoked for identifying, assessing and mitigating relevant cyber security risks. After completing the programme, graduates have understanding, knowledge and skills, at tacticstrategic level, related to (a) the cyber security challenges of today & tomorrow, (b) possible (monoand multi-disciplinary) approaches to take up these challenges, and (c) how their personal knowledge, understanding and skills can contribute to the overall (quality of the) solutions.

Article 2.2 **Specialisations**

[not applicable]

²[Leiden University Code of Conduct on Standards of Behaviour between Lecturers and Students](#)

³[Leiden University Regulations on ICT and Internet Use](#)

⁴[FGGA Code of Conduct](#)

Article 2.3 **Learning outcomes**

Graduates of the programme have attained the following learning outcomes, listed according to the Dublin descriptors.

After successful completion of the programme participants obtain a Master of Science (Msc) from Leiden University. Those who complete the programme have the knowledge, understanding and skills necessary to solve multi- or interdisciplinary cybersecurity-related issues in a professional field for which academic schooling is useful. Participants have the option of further study (obtaining a PhD) after this master's degree.

a. Knowledge and understanding

Graduates have knowledge and understanding of:

- cyberspace as a complex socio-technical system, which cyber threats and vulnerabilities exist in society, in organisations, as well as in applications and products, and how these can lead to incidents with what potential impact
- basic principles of the use and abuse of the Internet (incl. cyber actors and their acting)
- an integral approach on cyber risk management
- central concepts, methods, frameworks, main research methods, ways of working and applications in the field of Social Sciences, Law and Computer Sciences, suitable for addressing cyber security problems in these different scientific fields.

b. Applying knowledge and understanding

Graduates are able to:

- analyse complex cyber security problems and link them to relevant theories, concepts and methods from different disciplines
- translate and apply theoretical knowledge of cyber security to professional practice and vice versa in order to facilitate and enable adequate decision making in public and private sectors.
- develop a set of adequate measures to reduce cyber risks in society and business to acceptable levels.

b. Judgements Graduates are able to:

- use academic skills and perform based on a scientific attitude (e.g. helicopter view, integrity, analytical skills, idealism and vision, internal drive) and to make the connection between business interests and other interests
- find, consult and use relevant (international) literature on cyber security and related fields
- formulate a scientific based policy, strategy or research plan for professional tasks/scientific aims.

c. Communication

Graduates are able to:

- construct and articulate scientific arguments (in oral and written modes) on cyber security challenges in professional and academic settings.
- discuss and evaluate results, cases and new developments in cyber security with colleagues, decision makers and researchers.
- write a scientific report or an accessible, scientific publication on cyber security.

d. Learning skills

Graduates are able to:

- anticipate required changes to the organisation's information security strategy and formulate plans to anticipate and leverage new developments
- keep their knowledge about relevant technology, emerging technologies, relevant market

applications, market needs and trends and branch-specific issues up to date.

Option 1 Technical Track

Graduates have: technical understanding of ICT systems, technical measures and interventions in relation to cyber security questions.

Graduates are able to: translate technical understanding of cyber security into a multidisciplinary oriented policy or strategy.

Graduates are able to: communicate technical issues, scientific findings and complex case studies on Cyber Security clearly and unambiguously to a nontechnically trained audience.

Option 2 Governance Track

Graduates have: understanding of central concepts and applied theoretical and empirical techniques in relation to cyber security questions within the field of law and various social sciences.

Graduates are able to: translate legal, administrative and managerial understanding of cyber security into a multidisciplinary oriented policy or strategy.

Graduates are able to: communicate non-technical issues, scientific findings and complex case studies on Cyber Security clearly and unambiguously to a technically trained audience.

Article 2.4 Structure of the programme

The programme offers part-time tuition.

The part-time programme is offered as a daytime programme.

The nominal duration of the part-time programme is 2 years.

Article 2.5 Study load

The programme has a study load of 60 ECTS credits.

Article 2.6 Start of the programme; uniform structure of the academic year

The programme starts on 1 February of each year.. In terms of regular courses, the programme is based on the university semester system and comprises 42 teaching weeks.

Article 2.7 Final examinations of the programme

The programme is associated with a final examination.

Article 2.8 Language of instruction

In accordance with the Code of Conduct on the Language of Instruction and Examination⁵ the language of instruction and examination in the programme is *English*. Students are expected to have an adequate command of the language(s) of instruction and examination in the programme, in accordance with the requirements stated in Article 5.2.3. As appropriate, the Faculty publishes OER in English for English-taught programmes.

⁵ [Code of Conduct on Language of Instruction](#)

Article 2.9 **Quality**

The programme is accredited by NVAO⁶ and meets the national and international quality requirements for degree programmes. The programme's teaching also meets the quality standards for teaching set out in the Leiden Register of Study Programmes Framework Document.

Chapter 3 **Curriculum**

Article 3.1 **Compulsory components**

3.1.1 The programme includes compulsory components worth a total study load of 60 ECTS credits. These compulsory components include the set components from which students are obliged to choose.

3.1.2 The e-Prospectus further specifies the actual structure of the programme, i.e. the study load, level,⁷ contents and structure of the components on the curriculum.

Article 3.2 **Optional components**

3.2.1 Alongside the components referred to 3.1.1, the student selects components worth a total study load of 0 ECTS.

3.2.2 The Board of Examiners must approve the student's selection of components.

3.2.3 In addition to the components taught at this university, and subject to the approval of the Board of Examiners, students may also select components offered by other Dutch or foreign universities, or components offered by another legal entity offering accredited undergraduate higher education programmes.

3.2.4 Students who are enrolled in the programme may assemble their own programme of components that are taught by an institution, as long as a final examination is associated with these. They will require the permission of the most appropriate Board of Examiners. When granting such permission, the Board of Examiners also indicates to which University programme the programme is considered to belong.⁸ If necessary, the Executive Board appoints a Board of Examiners to take this decision.

Article 3.3 **Practicals**

3.3.1 For each component, the e-Prospectus specifies which practicals are included, the nature and scope of the student's workload for these practicals and whether participation in these is a condition of entry to the examination for the component. The Board of Examiners may exempt students from a practical, in which case the Board choose to apply alternative conditions.

⁶ The Accreditation Organisation of the Netherlands and Flanders.

⁷ In accordance with the 'abstract structure', as described in the Framework Document of the Leiden University Register of Study Programmes.

⁸ In accordance with Article 7.3d of the WHW ('free curriculum in higher education').

3.3.2 The e-Prospectus specifies the scope and study load of the thesis/final paper/final report, including the requirements that the final assignment/thesis/final report must meet.

Article 3.4 Sitting examinations and taking part in programme components
[not applicable]

Article 3.5 Distribution of study materials

3.5.1 Students are not permitted to make audio or video recordings of lectures without the explicit prior permission of the relevant lecturer. Should such permission be granted, students are only legally permitted to use the recording for their own use; all forms of distribution or publication of the recordings are prohibited.

3.5.2 Students are prohibited from all forms of distribution or publication of study materials. The materials are for students' own use only.

Chapter 4 Examinations, Final Examination and Further Education

Article 4.1 Frequency of examinations

4.1.1 Examinations are held twice during the academic year for each component offered in that year. The Board of Examiners determines the manner of resit for practicals.

4.1.2 If a component comprises a practical, students may only sit the examination as referred to in 4.1.1 if they have passed the practical, unless the Board of Examiners decides otherwise.

4.1.3 *[not applicable]*

4.1.4 In accordance with Article 7.13 (2) (h) of the Act, the e-Prospectus specifies the dates of the examinations.

4.1.5 The Board of Examiners may set certain rules for taking the resit. These rules are specified in the Rules and Regulations of the Board of Examiners.

4.1.6 Contrary to the provisions of Article 4.1 and at a student's request, the Board of Examiners may in exceptional circumstances allow an additional resit.

4.1.7 If a student has passed an examination linked to a given component but nevertheless resits this examination without the permission of the Board of Examiners the result of the last sitting will not be assessed

Article 4.2 Obligatory sequence

4.2.1 The e-Prospectus specifies the sequence in which examinations must be taken. Students may only sit examinations that are subject to a compulsory sequence once they have passed the examinations for one or more other components.

4.2.2 For the components and their attendant examinations which must be completed in a given sequence, the Board of Examiners may in special cases, and following a substantiated written request by the student, agree to an alternative sequence.

Article 4.3 **Form of examination**

4.3.1 The e-Prospectus states whether an examination or constituent examination for a component will take the form of a written, oral or other test.

4.3.2 Students with a disability or chronic medical condition are given the opportunity to apply for individual examination arrangements adjusted to their particular disability or condition. These arrangements may not affect the quality or level of difficulty of the examination. If necessary, the Board of Examiners seeks expert advice, as referred to in the Protocol on Studying with a Disability,⁹ before reaching a decision.

4.3.3 In special cases, the Board of Examiners may, at the request of the student and within the scope of the OER, permit a student to sit an examination in another manner than specified in the e-Prospectus.

4.3.4 Examinations are held in the language(s) of instruction for this programme that are specified in the OER. At the request of the student, the Board of Examiners may permit him or her to sit an examination in another language.

4.3.5 The procedure of completion of the Master's thesis is specified in the e-prospectus.

Article 4.4 **Oral examinations**

4.1.1 Students take oral examinations individually, unless the Board of Examiners decides otherwise.

4.4.2 Oral examinations are public, unless the Board of Examiners or the examiner concerned decides otherwise owing to special circumstances, or unless the student objects.

Article 4.5 **Rules and regulations set by the Board of Examiners**

4.5.1 In accordance with Article 7.12b (3) of the Act, the Board of Examiners establishes rules concerning the performance of its tasks and responsibilities and the measures it can take in the event of fraud.

4.5.2 The Board of Examiners must guarantee that students are entitled to appeal against decisions of the Board of Examiners or the examiners.

Article 4.6 **Assessment**

4.6.1 The examiner determines the mark immediately after an oral examination has been conducted. The student is informed of this through the University study progress system.

4.6.2 The examiner marks any written examination or constituent examination within 15 working days of the day on which the examination or constituent examination was taken, and informs the

⁹ [Protocol on Studying with a Disability](#)

departmental office of the result by entering this into the University study progress system. The student is informed of this through the University study progress system.

4.6.3 If the examiner is unable to comply with the period of 15 working days specified in Article 4.6.2, the student is notified accordingly through Blackboard and in a personal mail to the student's e-mail address before this term expires. This notification includes the latest date by which the student will be informed of the result.

4.6.4 The examination result is expressed as a whole number or a number to a maximum of one decimal place up to and including 1.0 and 10.0 (rounded to .0 or .5). The result is not to be expressed as a number between 5.0 and 6.0.

4.6.5 The result of the examination is considered to be a pass if the result is 6.0 or higher.

4.6.6 If students must complete a practical to be permitted to sit an examination, the Board of Examiners may decide that students have passed the examination once they have passed the practical.

4.6.7 Together with the written or electronic notification of examination results, students are also informed of their right to inspect their marked examination papers, as referred to in Article 4.8, as well as of the appeals procedure.

4.6.8 The Board of Examiners may draw up rules that specify under which conditions it may exercise its power as specified in Article 7.12b (3) of the Act to determine that students do not have to pass every examination and/or under which conditions the results of constituent examinations can compensate for each other. These rules are specified in the Rules and Regulations of the Board of Examiners.

Article 4.7 **Validity of examinations**

4.7.1 The Faculty Board may limit the validity of an examination pass, subject to the authority of the Board of Examiners to extend the period of validity in individual cases. The period of validity of an examination pass may only be limited if the examined knowledge, understanding or skills are demonstrably outdated.

4.7.2 The Board of Examiners may, in accordance with the criteria specified in the Rules and Regulations and at the request of the student, extend the validity of examinations for a period to be specified by the Board itself. In the event of special circumstances in the sense of article 7.51, second clause, of the law, the Board of Examiners will act in accordance with the pertinent provisions in article 7.10, fourth clause of the law.

4.7.3 The validity period referred to 4.7.1 starts on 1 September of the academic year following that in which the mark was obtained or the exemption granted.

Article 4.8 **Inspection and final evaluation**

4.8.1 Students are entitled to view their marked examination for a period of 30 days following the publication of the results of a written examination.

4.8.2 During the period referred to in 4.8.1, students may inspect the examination questions and assignments, as well as the marking schemes used to mark the examination.

4.8.3 The time and manner of the feedback session on the examination is specified in the e-Prospectus.

4.8.4 The Board of Examiners is authorised to decide whether the viewing of the examination paper and the feedback session are to be collective or individual.

4.8.5 The examiner determines where and when the viewing of the examination paper and the feedback session will take place.

4.8.6 Students who are unable to attend the feedback session due to demonstrable circumstances beyond their control are granted another opportunity, if possible within the period referred to in 4.8.1.

Article 4.9 **Exemption from examinations and/or practicals**

At the student's request and after consultation with the examiner in question, the Board of Examiners may grant the student exemption from one or more examinations or practicals if the student:

- has completed a component at a research university or university of applied sciences that is similar in content and level to the component for which the student is requesting exemption, or
- has demonstrated, through relevant work or professional experience, that he or she has acquired sufficient skills and knowledge in relation to the component in question.

Article 4.10 **Final examination**

4.10.1 The Board of Examiners awards a degree certificate when there is sufficient proof that the final examination has been passed.

4.10.2 As part of the final examination, the Board of Examiners is entitled to conduct its own evaluation of the knowledge, understanding and skills of the examination candidate and assess the results.

4.10.3 The degree is only conferred once the Executive Board has declared that all procedural requirements (including the requirement to pay tuition fees) have been met. One degree certificate is awarded for each programme. The degree certificate states that the programme or specialisation was delivered by Leiden University.

4.10.4 Pursuant to the regulations referred to in Article 7.11 (3) of the Act, a student who is entitled to graduate may ask the Board of Examiners to postpone graduation, as long as the student has not exceeded the nominal period of enrolment for the programme in question by more than one year.

4.10.5 This request must be submitted within five working days of the student receiving notification of his or her final examination results. In the request the student must indicate when he or she wishes to receive the degree certificate.

4.10.6 The Board of Examiners may also approve the request if refusing it would result in a considerable injustice.

4.10.7 A supplement in Dutch or in English that conforms to the standard European Diploma Supplement format, including the grading table applicable for the degree programme, is attached to the degree certificate. In addition to the degree certificate, students are issued with a translation of the degree certificate and a certificate in Latin.

Article 4.11 **The degree**

4.11.1 The degree of Master of Science is awarded to those who have passed the final examination of the programme.

4.11.2 The degree certificate specifies which degree has been awarded.

Article 4.12 **Degree classification**

4.12.1 The student is awarded a mark for the final examination.

4.12.2 The final mark is based on the weighted average of the marks obtained for all examinations that form part of the final examination, with the exception of the examinations for which an exemption was granted or examinations for which the student only obtained a proof of attendance. Components completed from other programmes, including components followed abroad, must be approved by the Board of Examiners.

4.12.3 The weighted average of all marks is determined by multiplying the number of ECTS credits for each component by the mark awarded for this component, adding these together and then dividing the result by the number of credits earned.

4.12.4 Without prejudice to the provisions of 4.12.6 and 4.12.7, the degree certificate and diploma supplement include the 'cum laude' classification if the following conditions are met for the full-time programmes:

- the weighted average for all components is 8.0 or higher;
- the mark for the Master's thesis is 8.0 or higher;
- the examination was passed within the nominal duration of study + 1 year.

The Board of Examiners sets corresponding conditions for part-time programmes.

4.12.5 Without prejudice to the provisions of 4.12.6 and 4.12.7, the degree certificate and the diploma supplement include the 'summa cum laude' classification if the following conditions are met for the full-time programmes:

- the weighted average for all components is 9.0 or higher;
- the mark for the Master's thesis is 9.0 or higher;
- the examination has been passed within the nominal duration of study.

The Board of Examiners sets corresponding conditions for part-time programmes.

4.12.6 The Board of Examiners may also decide to award a distinction in other, exceptional cases, on the condition that the weighted average mark does not differ by more than 0.5 from the marks stipulated in the fourth and fifth paragraphs above. This may involve such considerations as the student's development throughout his or her study programme, any exceptional performances on the

part of the student in completing the final paper or thesis and any other relevant exceptional circumstances.

4.12.7 If a student has been subject to disciplinary measures as a result of irregularity, fraud or plagiarism, he or she is not awarded a distinction.

Article 4.13 **Further education**

The degree awarded grants the holder access to a PhD programme.

Chapter 5 Admission to the Programme

Article 5.1 **Confirmation of admission**

5.1.1 The Faculty Board provides confirmation of admission if the student meets the entry requirements specified in Articles 5.2 and 5.3, as long as the maximum number of students that the Executive Board has determined may be enrolled in the programme has not been exceeded. If admission is on the basis of Article 5.2.1, the proof of registration is also confirmation of admission.

5.1.2 Confirmation of admission must be applied for according to the rules set out in the Regulations for Admission to Master's Programmes.¹⁰

Article 5.2 **Admission to the programme**

5.2.1 Around 24 participants can be admitted to the programme annually. By limiting the programme to this number, exclusivity and optimal guidance and teaching conditions can be guaranteed.

Admissions follow an intake procedure. This procedure has been designed in accordance with the quality assurance model applied by Leiden University. The intake interview is a standard part of the intake procedure. Participants are required to complete an application form and submit a cv and a motivation letter.

After the applicant's suitability has been determined on the basis of the information provided, an individual intake interview is held with the Board of Admissions. This Board consists of the professor, two core lecturers and the programme manager.

Admissions criteria

The following admission criteria are applied:

Knowledge/prior education

- A completed MA (in a relevant subject area) from a recognised institution of higher education or university of applied sciences (HBO); (ie, in the possession of knowledge and skills to carry out scientific research or demonstrable knowledge of methodology relevant to their own discipline);
- A defined knowledge basis and relevant experience acquired in the professional field.

¹⁰[Regulations for Admission to Master's Programmes](#)

Without prejudice to Article 2.1 professionals without a university (of applied sciences) master's degree but with a relevant university (of applied sciences) bachelor's degree are conditionally acceptable provided they have other appropriate additional education / courses in combination with or related to relevant work experience.

- A good command of the English language. Without prejudice to the stipulations in Article 5.2.1. regarding maximum capacity, applicants with a non-Dutch university degree are granted admissions to the programme if they have, in the opinion of the Faculty Board, sufficient command of the language of instruction of the programme to be assessed by the Board of Admissions, based on the following test: IELTS 6.5, TOEFL paper 575, TOEFL Computer 232, TOEFL internet 90, Cambridge 180. The Board of Admissions can make a motivated exemption on this entry requirement. This requirement does not apply if the applicant has completed his education in any one of the following countries: Canada (except Quebec), USA, UK, Ireland, New Zealand, Australia or has an (English-taught) International Baccalaureate.

Work experience

- Some years of work experience in a private or public organisation that is engaged with the organisation of and handling of issues in the area of (cyber) security.

Motivation/Skills

- Demonstrably show in their letter of application that they are attracted to the multidisciplinary character of the programme.

- Be motivated and willing to participate proactively in small-scale, intensive and interactive lectures and work groups. In the intake interview any deficiencies are identified and an agreement is made about how they will be compensated for. As compensation can be considered other certificates, prior assessments, portfolio, references or a tailor-made academic assignment.

Specific requirements for choosing a track (technical and governance) are set during the intake. At the intake it will be determined which of these tracks the participant has automatic access to. If the participant prefers to take a different track, additional requirements will be set. Some electives are not suitable/accessible for everyone (see course catalogue). Agreements on this issue are made during the intake interview on the basis of the applicant's profile.

Article 5.3 **Deficiencies**

5.3.1 Holders of a bachelor's degree from a research university or an equivalent diploma with 1 ECTS of deficiencies, may be admitted to the programme, as long as it may reasonably be expected that they will meet the entry requirements within a reasonable period of time.

5.3.2 Students who still have the deficiencies referred to in 5.3.1 when admitted to the programme may participate in the programme but may not sit any final examinations or examinations that the Faculty Board has specified in its decision to grant admission.

5.3.3 For the admission referred to in 5.3.1 the Board of Admissions assembles a catch-up programme with examination opportunities.

5.3.4 If students is admitted to the programme on the basis of 5.3.1 and must sit examinations to meet the entry requirements, these are not considered part of the curriculum of the Master's programme.

Article 5.4 **Bridging programmes (Pre-master's)**

[not applicable]

Chapter 6 Student Counselling and Study Advice

Article 6.1 Student progress report

6.1.1 The Faculty Board keeps records of the results achieved by individual students.

6.1.2 Students may inspect their results in the student progress system at any time.

Article 6.2 Introduction and student counselling

The department is responsible for the introduction and student counselling.

Article 6.3 Supervision of the thesis/final paper/final report

6.3.1 The student draws up a plan for the thesis together with the first reader, as referred to in 3.3.2. This plan is based on the study load for this component, as specified in the e-Prospectus.

6.3.2 The plan referred to in 6.3.1 also specifies the frequency and manner of supervision.

Article 6.4 Professional sports

Students who engage in sports at a professional level are given the opportunity to adjust their study programme to their sporting activities wherever possible. The department determines who falls within this category in line with the guidelines drawn up by the Executive Board.

Article 6.5 Disability or chronic medical condition

Where possible, students with a disability or chronic medical condition are given the opportunity to adjust their study programme to the limitations resulting from their disability or chronic medical condition. The programme can be adjusted to the individual disability or chronic medical condition of the student in question, but this must not affect the quality or level of difficulty of the components or the programme itself.¹¹

Article 6.7 Study and internships abroad

Special measures will be taken for students who suffer from a demonstrable delay in their studies as a result of study or an internship abroad that has been approved by the Board of Examiners, in order to limit the delay.

Chapter 7 Evaluation of the Programme

Article 7.1 Evaluation of the programme

The programme is evaluated as follows:

- Course evaluations

¹¹[Protocol on studying with a disability](#)

- Programme evaluation
- Evaluations are processed in longitudinal overview
- Education Committee
- Board of Examiners

Chapter 8 Final Provisions

Article 8.1 Amendments

8.1.1 Amendments to these regulations are implemented by a separate order of the Faculty Board or the programme committee, depending on the topics concerned, with the prior consent of the Faculty Council.

8.1.2 Amendments to these regulations which apply to a particular academic year must be implemented before the start of that year and published in the prescribed manner, unless earlier implementation of an amendment to the regulations is strictly necessary and in all reasonableness does not harm the students' interests.

8.1.3 Amendments to these regulations may not adversely affect any prior decision pertaining to students taken by the Board of Examiners on the basis of these regulations.

Article 8.2 Publication

The department is responsible for publishing these regulations, the rules and guidelines set by the Board of Examiners, and any amendment to these articles via the University website.

Article 8.3 Term of application

The OER apply for the duration of one academic year.

Article 8.4 Entry into force

These regulations enter into force on 1 September 2018.
