

Hardship clause applicable to students and bridging programme students due to Covid-19 measures

Requirements for admission to the master's programme

1. As a special measure arising from the Corona crisis, at the student's request, the Board of Admissions can decide to admit a student who is preparing for the final exam of the bachelor's programme for one year, provided the student only needs to pass components with a joint study load of at most:
 - 30 EC, which includes the final bachelor's project/thesis, or
 - 'x' EC pertaining to taught courses (where $x = 30$ EC minus the number of EC that are normally awarded for the final bachelor's project/thesis of the bachelor's programme involved)
2. Once the student has passed the final exam of the bachelor's programme, admission for the remaining months will be converted to a definite admission.
3. If the student has not passed the final exam of the bachelor's programme by 31 August 2021 at the latest, he/she will be excluded from further participation in the master's programme until the bachelor's exam exam has been passed.
4. This article becomes effective once the 'Emergency Act relating to study delays resulting from Corona' enters into force.
