

## Recording your presentation with PowerPoint slide show recording

PowerPoint allows you to record a PowerPoint slide show with voice-over. You can save the presentation as a video file.

- Instructions on creating a PowerPoint slide show recording: [How to Record a slide show with narration and slide timings](#)

*Please note the following:* audio will not be recorded during slide transitions. We recommend you pause a few seconds into the slide and at the end so you will not lose any spoken audio. Continue speaking when the slide has transitioned and the timer below 'Current slide' starts running again:

- Instructions on saving your PowerPoint recording as an .mp4 video file: [Turn your presentation into a video.](#)

You can now upload your video file in *Kaltura* and share it with others via the video portal or Blackboard/ Brightspace
