Does this application concern
1. an amendment to a previously CEP-approved application, or
2. a study that is comparable to a previously CEP-approved application?

For option 1. Select ‘Amendment’. For option 2. Select ‘Comparable study’ for 2 when you start a new application via ‘+add study’. Choose the relevant Linked application type.

Email a description of your research of 150 to max. 500 words to ethiekpsychologie@fsw.leidenuniv.nl. Describe your research aim, intended findings/application and potential risks, focusing on misuse and dual use.

This study involves the collection of new data.

Existing data of human participants will be used in this study.

Use the form ‘Existing/secondary data’.

This study involves only (non-human) animals.

You do not need to submit your research for CEP approval. For questions, you may reach out to ethiekpsychologie@fsw.leidenuniv.nl. If the study falls under Wet Dierproeven, approval from the Central Authority for Scientific Procedures on Animals (CCD) is needed.

Does the proposed research fall under the Medical Research Involving Human Subjects Act (WMO)?

Submit your proposal to the METC-LDD. After receiving METC approval, upload the relevant documents in the CEP portal via ‘METC submission’.

Does the proposed research fall under the CEP procedure for basic (f)MRI?

Submit your proposal in the CEP portal via ‘Basic (f)MRI’.

Has the research been approved by another accredited ETC and will human data be collected, processed, or analyzed at this institute?

Submit your proposal in the CEP portal via ‘Declaration of local feasibility’.

Submit via the CEP tool the forms ‘Standard’ for a standard application or ‘Bachelorproject’ for a Bachelorproject when you start a new application via ‘+add study’.
