

COURSE AND EXAMINATION REGULATIONS

Valid from 1 September 2022

Master's programmes in Psychology (research)

These Course and Examination Regulations (henceforth OER) have been drawn up in accordance with the Higher Education and Research Act [*Wet op het hoger onderwijs en wetenschappelijk onderzoek*, WHW] (henceforth the Act) and the following Leiden University regulations:

- the Leiden Register of Study Programmes Framework Document
- the Academic Calendar
- the Regulations for Student Registration, Tuition Fees and Examination Fees
- the Regulations for Admission to Master's Programmes

Pursuant to Article 7.14 of the Act, the Faculty Board regularly evaluates the OER and considers, for the purpose of monitoring and –if necessary- adjusting the study load, how much time it takes students to comply. In accordance with Article 9.18 of the Act, the Programme committee is assigned the task of annually assessing the implementation of the OER.

Contents

1. General Provisions
2. Description of the Programme
3. Curriculum
4. Examinations, Final Examinations and Further Education
5. Admission to the Programme
6. Student Counselling and Study Advice
7. Evaluation of the Programme
8. Final Provisions

Appendices

- Enrolment protocol
- Prospectus <https://studiegids.leidenuniv.nl>
- Appendix 1: Programme Contents
- Appendix 2: Admissions Procedure for the Master's Programme (research)
- Appendix 3: Master's Thesis and Internship regulations
- Appendix 4: Regulations regarding the choice of Track and Courses from other tracks and specialisations

Chapter 1 General Provisions

Article 1.1 Scope of the regulations

These regulations apply to the teaching and examinations of the Master's programme(s) Psychology (research), henceforth referred to as the programme.

The programme is instituted in the Faculty of Social and Behavioural Sciences of Leiden University, henceforth referred to as the Faculty, and is taught in Leiden by the institute of Psychology.

Article 1.2 Definitions

In these regulations the following definitions apply:

- | | |
|------------------------------------|---|
| a. Board of Admissions | The Board established by the Faculty Board that has the duty of determining, with the application of the entry requirements referred to in Article 7.30b, (1) and (3) of the Act and the University Regulations for Admission to Master's Programmes, which applicants can be admitted to this Master's programme |
| b. Board of Examiners | The Board of Examiners for the programme, established and appointed by the Faculty Board in accordance with Article 7.12a of the Act |
| c. Component | One of the courses or practical assignments of the programme, as referred to in Article 7.3 of the Act. The study load of each component is expressed in whole credits. Each component is concluded with an examination. |
| d. Credit | The unit in EC that expresses the study load of a component as referred to in the Act. According to the ECTS, one credit equals 28 hours of study. |
| e. Degree classification | Further degree classification by the Board of Examiners |
| f. Digital teaching environment | A digital environment, such as Brightspace, in which students can work together, communicate and learn |
| g. ECTS | European Credit (Transfer System) |
| h. Education Administration Office | The office in the faculty where students can go for information and to register for courses (education information centre, service desk, Student Services Centre |
| i. Prospectus | The digital prospectus containing specific and binding information about the programme: https://studiegids.universiteitleiden.nl/ . The |

Prospectus constitutes an integral part of these regulations, and is included as an appendix.

- j. Enrolment protocol The enrolment protocol containing specific and binding information concerning enrolment in components, examinations, and final examinations, established by the Executive Board (<https://inschrijfprotocol.universiteitleiden.nl/>). The enrolment protocol constitutes an integral part of these regulations, and is included as an appendix.
- k. Examination
(*tentamen*) An inspection of the knowledge, understanding and skills of the student with respect to a particular component, and an assessment thereof (in accordance with Article 7.10 of the Act). The assessment can take place in written form, orally as well as digitally, or a combination of these methods. An examination may consist of several constituent examinations. Credits are only awarded for examinations passed. The inspection is conducted according to the method determined by the Board of the Examiners to assure the quality of examination and final examinations.
- l. Examiner The person appointed by the Board of Examiners to conduct examinations, in accordance with Article 7.12c of the Act
- m. Final examination
(*examen*) The examinations associated with the components belonging to the programme or the propaedeutic phase of the programme, including an investigation to be carried out by the Board of Examiners itself, as referred to in Article 7.10 (2) of the Act
- n. First/second reader The first or second examiner to read and assess the thesis/final paper/final report/final programme assignment. The first reader/reviewer is also the supervisor.
- o. Language of instruction The language of a programme, in which lectures and tutorials are given and examinations and final examinations are held
- p. Leiden Register of Study
Programmes Register of the programmes offered by Leiden University, maintained under the supervision of the Executive Board, as referred to in Article 7 of the Management and Administration Regulations
- q. Level The level of a component according to the abstract structure as defined in the Leiden Register of Study Programmes Framework Document¹
- r. Nominal duration of
study The study load in years of study as established in the Central Register of Higher Education Programmes

¹ [Leiden Register of Study Programmes Framework Document](#)

- s. Portfolio A monitoring and assessment file with which students (1) demonstrate that they have achieved a sufficient level of academic education to be awarded the degree, (2) record their personal process of academic learning during the programme, and (3) receive appropriate supervision and study advice
- t. Practical assignment A practical assignment that contributes to an examination or final examination, as referred to in Article 7.13 (2) (d) of the Act, and takes one of the following forms:
- writing a thesis/final paper/final report/final programme assignment,
 - writing a paper or creating an artistic work,
 - carrying out a research assignment,
 - participating in fieldwork or an excursion,
 - completing an internship, or
 - participating in another educational activity aimed at acquiring particular skills
- u. Pre-master's programme Opportunity to compensate for deficiencies in the context of a failure to meet the entry requirements as referred to in Article 7.30 E of the Act
- v. Programme The programme to which the OER relates: a coherent set of components, aimed at achieving clearly defined objectives relating to the knowledge, understanding and skills that a graduate of the programme is expected to have acquired. Each programme is concluded with a final examination.
- w. Student A person enrolled at Leiden University in order to follow the courses, and/or sit the examinations and final examinations of the programme
- x. The Act The Higher Education and Research Act [*Wet op het hoger onderwijs en wetenschappelijk onderzoek*, WHW]
- y. Working day Monday to Friday, excluding public holidays and the compulsory closure days specified by the Executive Board

All other terms have the meaning ascribed to them by the Act.

Article 1.3 **Codes of conduct**

1.3.1 The Leiden University Code of Conduct on Standards of Behaviour between Lecturers and Students is applicable.² The aim of this code is to create a framework for a good, safe and stimulating

²[Leiden University Code of Conduct on Standards of Behaviour between Lecturers and Students](#)

work and study environment within Leiden University, in which teachers and students respect each other and in which mutual acceptance and trust are important values.

1.3.2. The Code of Conduct on Digital Teaching applies³; this provides guidelines for teaching and learning in digital environments, remote environments or any form of teaching that is primarily dependent on IT Services.

1.3.3 The Leiden University Regulations on ICT and Internet Use are also applicable.⁴ These regulations define what is considered appropriate use of ICT and internet and how usage checks will be made. They also explain which conduct is not tolerated and the consequences that apply

1.3.4 Furthermore, the following Faculty codes of conduct apply to the programme:

- Not applicable

Chapter 2 Description of the Programme

Article 2.1 Objectives of the programme

The programme has the following objectives: see article 2.3.

Article 2.2 Specialisations

The programme Psychology (research) has the following specialisations:

- Clinical and Health Psychology
- Cognitive Neuroscience
- Developmental Psychology
- Social and Economic Psychology

Article 2.3 Learning outcomes

Graduates of the programme have attained the following learning outcomes, listed according to the Dublin descriptors:

a. Knowledge and understanding

Graduates demonstrate advanced knowledge and understanding of

- classic and contemporary theoretical models to explain decision making and action control in self-regulation of human behaviour, in general and in the domain of specialization.
- methodologies and data collection techniques designed to answer research questions at the appropriate level of aggregation (society, organization, group, individual) and/or test specific hypotheses.

b. Applying knowledge and understanding:

Graduates demonstrate the comprehensive ability to:

- analyse psychological phenomena at the appropriate level of aggregation (society, organization, group, individual) and translate these analyses into scientific research questions.

³ [Code of Conduct on Digital Teaching](#)

⁴ [Leiden University Regulations on ICT and Internet Use](#)

- critically select, study and review literature that is relevant to the issue.
- develop, implement and evaluate interventions aimed at changing behaviour at the appropriate level of aggregation: society, organization, group, individual.
- choose and apply appropriate statistical methods and to critically evaluate the outcomes of different statistical analyses.
- acknowledge the added value of applying scientific knowledge or methods from (sub)disciplines other than one's own domain of specialisation.

c. Judgement

Graduates demonstrate the comprehensive ability to:

- form judgements on the basis of a proper selection, understanding, valuation and integration of the available scientific evidence.
- reflect on the social and ethical responsibilities associated with the application of scientific knowledge, advices or judgements. In the context of diagnosis and treatment and in academic research situations, professional conduct will be assessed in the obligatory components of all Master's programme specializations in which relevant aspects of professional conduct can be observed, discussed and assessed. Professional conduct also reflects our policies on academic integrity, as based on the Netherlands Code of Conduct for Research Integrity 2018, drawn up by Universities of the Netherlands. <https://www.universiteitleiden.nl/en/research/about-our-research/quality-and-integrity/academic-integrity>. Professional conduct will be assessed on the basis of the student's observable behaviour and reflection on this behaviour, with regard to the student's future professional practice as a psychologist and to the NIP (Dutch Association of Psychologists) professional code. This involves the following aspects: handling tasks/work, relating to others, relating to oneself, and the student's reflection on these aspects. The assessment method will be regulated by the Board of Examiners of the Institute of Psychology, and laid down in the Rules and Regulations.

d. Communication

Graduates demonstrate the comprehensive ability to:

- communicate (orally and in writing) about scientific knowledge, the empirical evidence on which this knowledge is based, and its theoretical or applied implications, to (non)specialist, multi-disciplinary audiences.

e. Learning skills

Graduates demonstrate the comprehensive ability to:

- critically reflect on the strengths and weaknesses of their own and others' research, in order to design follow-up research.
- develop autonomy and confidence in designing and conducting research, as well as contribute to a research group by proper management and filing of research data.

Article 2.4 Structure of the programme

The programme *Psychology (research)* offers full-time tuition.

The programme is offered as a daytime and evening programme.

The nominal duration of the part-time programme is 2 years.

Article 2.5 **Study load**

The programme has a study load of 120 ECTS credits.

Article 2.6 **Start of the programme; uniform structure of the academic year**

The programme starts on 1 September and on 1 February of each year. In terms of regular courses, the programme is based on the university semester system and comprises 42 teaching weeks.

Article 2.7 **Final examinations of the programme**

The programme is concluded with a master's final examination.

Article 2.8 **Language of instruction**

2.8.1 Subject to the Code of Conduct on the Language of Instruction and Examination,⁵ the language(s) in which the instruction is given is: English, and the language in which the examinations and final examinations are held is: English. Students are expected to have an adequate command of the language(s) of instruction and examination in the programme, in accordance with the requirements stated in Article 5.2.3. As appropriate, the Faculty publishes OER in English for English-taught programmes.

2.8.2 Contrary to Article 2.8.1, in individual cases the Board of Examiners can permit the student to write the final thesis in another language, in accordance with the Guideline on Language Policy.⁶

Article 2.9 **Quality**

The programme is accredited by NVAO⁷ and meets the national and international quality requirements for degree programmes. The programme's teaching also meets the quality standards for teaching set out in the Leiden Register of Study Programmes Framework Document.

Chapter 3 **Curriculum**

Article 3.0 **Exceptions due to coronavirus measures**

3.0.1 If, due to coronavirus measures, it is not possible to provide or take part in teaching components as set out in this Regulation or in the Prospectus, changes will be announced by the authorised body in due time via Brightspace.

Article 3.1 **Compulsory components**

3.1.1 The programme includes compulsory components worth a total study load of 100 ECTS credits. These compulsory components include the set components from which students are obliged to choose.

⁵ [Code of Conduct on Language of Instruction](#)

⁶ [Guideline on Language Policy](#)

⁷ The Accreditation Organisation of the Netherlands and Flanders.

3.1.2 The Prospectus further specifies the actual structure of the programme, the study load, level,⁸ content, method of examination, and structure of the components of the curriculum.

Article 3.2 **Optional components**

3.2.1 In addition to the components referred in 3.1.1, the student selects components worth a total study load of 20 ECTS.

3.2.2 The Board of Examiners must approve the student's selection of components.

3.2.3 In addition to the components taught at this university, and subject to the approval of the Board of Examiners, students may also select components offered by other Dutch or foreign universities, or components offered by another legal entity offering accredited undergraduate higher education programmes.

3.2.4 Students who are enrolled in the programme may assemble their own curriculum of components that are taught by an institution, as long as these are concluded with a final examination. They will require the permission of the most appropriate Board of Examiners. When granting such permission, the Board of Examiners also indicates to which University programme the curriculum is considered to belong.⁹ If necessary, the Executive Board designates a Board of Examiners to take this decision.

Article 3.3 **Practical assignments**

3.3.1 For each component, the Prospectus specifies which practical assignments are included, the nature and scope of the student's workload for these practical assignments and whether participation in these is a condition of admission to (other parts of) the examination. The Board of Examiners may exempt students from a practical assignment, in which case the Board can choose to apply alternative conditions.

3.3.2 The Prospectus specifies the scope and study load of the thesis/final paper/final report/final programme assignment, including the requirements that the final thesis/final paper/final report/final programme assignment must meet.

Article 3.4 **Taking part in components and sitting examinations¹⁰**

3.4.1 **Taking part in components**

⁸In accordance with the 'abstract structure', as described in the Framework Document of the Leiden University Register of Study Programmes.

⁹ In accordance with Article 7.3h of the WHW ('free curriculum in higher education').

¹⁰ Should the new enrolment system be ready by 1 September 2022, the following Articles will be deleted:
3.4.1 In order to sit an examination, the student is required to register for the examination in question no later than ten days before the date of the examination in accordance with the relevant enrolment procedure.

3.4.2 Admission to a component takes place in order of enrolment. For students who are enrolled in the programme and who enrol in timely fashion are guaranteed admission to components that are compulsory as part of the programme. Some components require students to first have passed the examination for another component before being granted admission. The Prospectus lists the components for which this applies.

3.4.1.1 Students must register for the component according to the applicable enrolment protocol. Registration is possible up to fourteen calendar days before the start, as stipulated in the programme prospectus.

3.4.1.2 In the case of a component with restrictions on the number of participants, participation takes place in order of enrolment. For students enrolled in the programme, timely enrolment guarantees placement in the components that form part of the mandatory curriculum of the programme.

3.4.1.3 Contrary to article 3.4.1.1, a different enrolment period applies for certain components, as approved by the Faculty Board. The relevant components and the corresponding enrolment term can be found in the Prospectus.

3.4.1.4 Students who have not enrolled on time can report to the Education Administration Office of the faculty of which the study programme is part. The relevant enrolment protocol lists the circumstances on the basis of which students may be enrolled contrary to Article 3.4.1.1.

3.4.2 Sitting examinations

3.4.2.1 At the same time as registering for the component, students register for the corresponding examination. A confirmation of registration for the examination is required.

3.4.2.2 Students who do not register for the component may register only for the examination or constituent examination. To be allowed to sit the examination or constituent examination, a confirmation of registration for the examination is required.

3.4.2.3 In order to sit the examination, students must confirm their participation. They can only sit an examination once confirmation of participation has been given.

3.4.2.4 Students will receive a notification in due time asking them to confirm or cancel their participation. Confirmation of participation in an examination is possible up to ten calendar days before the examination takes place.

3.4.2.5 Students who have not enrolled on time according to the applicable enrolment protocol may report to the Education Administration Office of the faculty of which the programme forms part.

3.4.2.6 A different term applies for the situation as referred to in Article 4.6.2; in this case, students can register up to five calendar days before the examination takes place.

Article 3.5 Distribution of study materials

3.5.1 Students are not permitted to take photographs or make audio or video recordings of lectures or education-related meetings, including the feedback sessions after examinations (including examination assignments and model answers), without the explicit prior permission of the relevant lecturer. Should such permission be granted, students are only legally permitted to photograph or record for their own use; all forms of distribution or publication of the photograph or recording are prohibited.

3.5.2 Students are prohibited from all forms of distribution or publication of study materials. The materials are for students' own use only.

Chapter 4 Examinations, Final Examinations and Further Education

Article 4.0 Exceptions due to coronavirus measures

4.0.1 If as a result of coronavirus measures it is not possible to offer exams and examinations in the form and at the point in time set out in this regulation or in the Prospectus, changes will be announced by the authorised body in due time via Brightspace.

Article 4.1 Frequency of examinations

4.1.1 Examinations are held twice during the academic year for each component offered in that year. The Board of Examiners determines the manner of resit for practical assignments.

4.1.2 The Faculty Board is responsible for the practical organisation of the examinations and final examinations and ensures, if necessary by means of invigilation, that the examinations and examinations proceed properly. If remote invigilation is used, this is done according to the Remote Invigilation Protocol.¹¹

4.1.3 If a component includes a practical assignment, students may only sit the examination as referred to in 4.1.1 if they have passed the practical assignment, unless the Board of Examiners decides otherwise.

4.1.4 If the grade for a component results from several constituent examinations, it is possible to vary from the number of examinations and resits as referred to in 4.1.1, on the understanding that students are given the opportunity to resit and pass the component by taking an examination that is representative of the component. If applicable, this is specified in the Prospectus.

4.1.5 In accordance with Article 7.13 (2) (h) of the Act, the Prospectus specifies the dates of the examinations.

4.1.6 The Board of Examiners may set certain rules for taking the resit. These rules are specified in the Rules and Regulations of the Board of Examiners.

4.1.7 At a student's request the Board of Examiners may in exceptional circumstances diverge from the provisions of Article 4.1.1 and allow an additional resit.

4.1.8 During a master's programme, students may resit one examination that they passed, without prejudice to the provisions of article 4.1.1 and the power of the Board of Examiners to deviate from this stipulation in exceptional cases and at the student's request. This only applies if the resit takes place in the same study year as the original examination. In the event of such a one-time resit, the highest result obtained applies.

¹¹ If the Remote Invigilation Protocol is not yet ready on 1 September 2022, the text of this article in the Model OER 2021-2022 will be retained: The Faculty Board is responsible for the practical organisation of the examinations and final examinations and ensures, if necessary by means of invigilation, that the examinations and final examinations proceed properly. If remote invigilation is used, the student will be informed of this at least ten days in advance.

The examination referred to in the first sentence may consist of a number of constituent examinations. Registration for this examination should take place in accordance to Articles 3.4.1.1 and 3.4.2.2.

4.1.9 The following are excluded from the resit option as referred to in Article 4.1.8:

- Oral examinations
- Practical assignments
- Examinations that the student passed at a different institution than Leiden University

4.1.10 If a component is included in multiple programmes, the student is only granted one opportunity to resit an examination he or she previously passed for this component.

Article 4.2 **Obligatory sequence**

4.2.1 The Prospectus specifies the sequence in which examinations must be taken. Students may only sit examinations that are subject to a compulsory sequence once they have passed the examinations for one or more other components.

4.2.2 For the components and their attendant examinations which must be completed in a given sequence, the Board of Examiners may in special cases, and following a substantiated written request by the student, agree to an alternative sequence.

Article 4.3 **Form of examination**

4.3.1 The Prospectus states whether an examination or the constituent examinations for a component take the form of a written, digital or oral examination, or a combination of these.

4.3.2 The procedure during examinations and the guidelines and instructions, as referred to in article 7.12b, paragraph 1 under b of the Act, for assessing and establishing the results of examinations and examinations are described in the 'Rules and Guidelines of the Board of Examiners'.

4.3.3 Students with a disability or chronic medical condition are given the opportunity to apply for individual examination arrangements adjusted to their particular disability or condition. These arrangements may not affect the quality or level of difficulty of the examination. If necessary, the Board of Examiners seeks expert advice, as referred to in the Protocol on Studying with a Disability,¹² before reaching a decision.

4.3.4 In special cases, the Board of Examiners may, at the request of the student and within the scope of the OER, permit a student to sit an examination in another manner than specified in the Prospectus.

4.3.5 Examinations are held in the language(s) of instruction for this programme that are specified in the OER. At the request of the student, the Board of Examiners may permit him or her to sit an examination in another language.

4.3.6 The final report is a written research report as specified in the Prospectus.

¹² [Protocol on Studying with a Disability](#)

Article 4.4 Oral examinations

4.1.1 Students take oral examinations individually, unless the Board of Examiners decides otherwise.

4.4.2 Oral examinations are public, unless the Board of Examiners or the examiner concerned decides otherwise owing to special circumstances, or unless the student has reservations.

Article 4.5 Rules and Regulations of the Board of Examiners

4.5.1 In accordance with Article 7.12b (3) of the Act, the Board of Examiners establishes rules concerning the performance of its tasks and responsibilities and the measures it can take in the event of fraud.

4.5.2 The Board of Examiners is responsible for ensuring that the right of students to appeal against decisions of the Board of Examiners or the examiners is guaranteed.

Article 4.6 Assessment

4.6.1 The examiner determines the grade immediately after an oral examination has been conducted. The student receives a message about the grade via the University study progress system.

4.6.2 The examiner determines the grade of any written or other form of examination or constituent examination within fifteen working days of the day on which the examination or constituent examination was held. The result is notified to the student within the same fifteen working days. The final grade is recorded in the University study progress system, and the student receives a message about it via that system. The student will be informed of the result at least five working days before the next opportunity to resit the relevant examination. If this deadline is not met, the resit can be postponed.

4.6.3 If the examiner is unable to comply with the periods of fifteen and five working days respectively, as specified in Article 4.6.2, the student is notified accordingly in a message sent to the student's u-mail address before this term expires. This message includes the (latest) date by which the student will be informed of the result.

4.6.4 The examination result (final grade; not a partial grade) will be expressed as a whole number or a number to a maximum of one decimal place (only 0,5), between and including 1.0 and 10.0. The result is not expressed as a number between 5.0 and 6.0. A partial result is expressed as a whole number or a number to a maximum of one decimal place.

4.6.5 The examination result is considered to be a pass if it is 6.0 or higher.

4.6.6 Not applicable

4.6.7 Together with the written or electronic notification of examination results, students are also informed of their right to inspect their graded examination papers, as referred to in Article 4.8, as well as of the appeals procedure.

4.6.8 The Board of Examiners may draw up rules that specify under which conditions it may exercise its power as specified in Article 7.12b (3) of the Act to determine that students do not have to pass every examination and/or under which conditions the results of constituent examinations can compensate for each other. These rules are specified in the Rules and Regulations of the Board of Examiners.

Article 4.7 Period of validity of examinations

4.7.1 The Faculty Board may limit the validity of an examination pass, subject to the authority of the Board of Examiners to extend the period of validity in individual cases. The period of validity of an examination pass may only be limited if the examined knowledge, understanding or skills are demonstrably outdated.

4.7.2 The Board of Examiners may, in accordance with the criteria specified in the Rules and Regulations and at the request of the student, extend the validity of examinations for a period to be specified by the Board itself. In the event of special circumstances in the sense of article 7.51, (2) of the Act the Board of Examiners will act in accordance with the pertinent provisions in article 7.10 (4) of the Act.

4.7.3 The validity period referred to 4.7.1 starts on 1 September of the academic year following that in which the grade was obtained or the exemption granted.

Article 4.8 Inspection and feedback session

4.8.1 Students are entitled to inspect their graded examination within a maximum period of 30 calendar days following the publication of the results of a written or digital examination.

4.8.2 During the period referred to in 4.8.1, students may inspect the examination questions and assignments, as well as the grading schemes used to grade the examination.

4.8.3 The time and manner of the inspection and feedback session on the examination are specified in the Prospectus or the digital teaching environment.

4.8.4 The Board of Examiners is authorised to decide whether the inspection of the examination paper and the feedback session are to be collective or individual.

4.8.5 The examiner determines where and when the inspection of the examination paper and the feedback session will take place.

4.8.6 Students who are unable to attend the feedback session due to demonstrable circumstances beyond their control are granted another opportunity, if possible within the period referred to in 4.8.1.

Article 4.9 Exemption from examinations and/or practical assignments

At the student's request and after consultation with the examiner in question, the Board of Examiners may grant the student exemption from one or more examinations or practical assignments if the student:

- has completed a component at a research university or university of applied sciences that is similar in content and level to the component for which the student is requesting exemption, or
- has demonstrated, through relevant work or professional experience, that he or she has acquired sufficient skills and knowledge in relation to the component in question.

In principle, no exemption will be granted for the master's internship. No exemption will be granted for the master's thesis.

Article 4.10 **Final examination**

4.10.1 The Board of Examiners awards a degree certificate when there is sufficient proof that the final examination has been passed.

4.10.2 As part of the final examination, the Board of Examiners is entitled to conduct its own evaluation of the knowledge, understanding and skills of the examination candidate and assess the results.

4.10.3 The degree is only conferred once the Executive Board has declared that all procedural requirements (including the requirement to pay tuition fees) have been met. One degree certificate is awarded for each programme. The degree certificate states that the programme or specialisation was delivered by Leiden University.

4.10.4 Pursuant to the regulations referred to in Article 7.11 (3) of the Act, a student who is entitled to graduate may ask the Board of Examiners to postpone graduation, as long as the student has not exceeded the maximum period of enrolment of the nominal study duration plus one academic year for the programme in question.

4.10.5 This request must be submitted within five working days of the student receiving notification of his or her final examination results. In the request the student must indicate when he or she wishes to receive the degree certificate.

4.10.6 The Board of Examiners may also approve the request if refusing it would result in a considerable injustice.

4.10.7 A supplement in Dutch and/or in English that conforms to the standard European Diploma Supplement format, including the grading table applicable for the degree programme, is attached to the degree certificate. In addition to the degree certificate, students are issued with a translation of the degree certificate and a certificate in Latin.

Article 4.11 **The degree**

4.11.1 The degree of Master of Science is awarded to those who have passed the final examination of the programme.

4.11.2 The degree certificate specifies which degree has been awarded.

Article 4.12 **Degree classification**

4.12.1 The student is awarded a degree classification for the final examination.

4.12.2 The final degree classification is based on the weighted average of the grades obtained for all examinations that form part of the final examination, with the exception of the components for which an exemption was granted or for which the student only obtained a proof of attendance. Components completed from other programmes, including components followed abroad, must be approved by the Board of Examiners.

4.12.3 The weighted average of all grades is determined by multiplying the number of ECTS credits for each component by the grade awarded for this component, adding these together and then dividing the result by the number of credits earned.

4.12.4 Without prejudice to the provisions of 4.12.6 and 4.12.7, the degree certificate and diploma supplement include the 'cum laude' classification if the following conditions are met for the full-time programmes:

- the weighted average for all components is 8.0 or higher
- the grade for the final assignment of the master's programme is 8.0 or higher
- the examination was passed within the nominal duration of study + 1 year
- none of the (partial) examinations or practical assignments were taken more than once. An exception is made for the resit based on article 4.1.8)

The Board of Examiners sets corresponding conditions for part-time programmes, proportionate to the nominal duration of the study programme.

4.12.5 Without prejudice to the provisions of 4.12.6 and 4.12.7, the degree certificate and the diploma supplement include the 'summa cum laude' classification if the following conditions are met for the full-time programmes:

- the weighted average for all components is 9.0 or higher
- the grade for the final assignment of the master's programme is 9.0 or higher
- the examination has been passed within the nominal duration of study
- none of the (partial) examinations or practical assignments were taken more than once. An exception is made for the resit based on article 4.1.8

The Board of Examiners sets corresponding conditions for part-time programmes, proportionate to the nominal duration of the study programme.

4.12.6 The Board of Examiners may also decide to award a distinction in other, exceptional cases, on the condition that the weighted average grade does not differ by more than 0.5 from the grades stipulated in the fourth and fifth paragraphs above. This may involve such considerations as the student's development throughout his or her study programme, any exceptional performances on the part of the student in completing the final paper or thesis and any other relevant exceptional circumstances.

4.12.7 If a student has been subject to a disciplinary measure as a result of irregularity, fraud or plagiarism, as set out in the Rules and Regulations, he or she is not awarded a distinction, unless the Board of Examiners decides otherwise.

Article 4.13 **Further education**

The degree awarded grants the holder access to a PhD programme.

Chapter 5 Admission to the programme per September 2023 or February 2024

Article 5.1 **Confirmation of admission**

5.1.1 The Faculty Board provides confirmation of admission if the student meets the entry requirements specified in Articles 5.2 and 5.3. If the Executive Board has determined a maximum number of students for the programme, a confirmation of admission will be issued if the student meets the entry requirements and this maximum number is not exceeded.

5.1.2 Confirmation of admission must be applied for according to the rules set out in the Regulations for Admission to Master's Programmes.¹³

Article 5.2 **Admission to the programme**

5.2.1 Holders of one of the following degrees may be admitted to the programme (Article 7.30b (1) of the Act):

Without prejudice to the stipulations in article 5.1.2 regarding maximum capacity, persons with a bachelor's degree from a university programme or an equivalent degree will be granted admission to the programme who:

- possess the skills, understanding and knowledge that are required for earning the bachelor's degree in Psychology or a related field; including the basic knowledge on university level of the following components, more specifically the knowledge on university level of the following topics:
 - introduction to psychology
 - social and organisational psychology
 - personality psychology
 - cognitive psychology
 - neuropsychology and/or psychophysiology and/or biopsychology
 - clinical and abnormal psychology
 - developmental and educational psychology
 - theory or training in interpersonal skills, such as interview, counselling, discussion techniques.
 - theory or training in psycho diagnostics
 - advanced courses (at least 30 EC) on a third year Bachelor level on topics pertaining to the preferred master specialisation within the MSc Psychology.

and

- have sufficient knowledge of Methodology and Statistics (at least 20 EC): introductory and more advanced courses in methodology and statistics of psychological research (including psychometrics, multivariate data-analysis) and the use of SPSS and/or R.

and

- A high grade for the bachelor thesis (at least 7.5 or equivalent).
- A high average grade for bachelor coursework (at least 7.5 or equivalent).

¹³[Regulations for Admission to Master's Programmes](#)

5.2.2 Any person who fails to meet the degree requirements or prescribed pre-master's requirement referred to in 5.2.1 may submit a request to the Board of Admissions. The Board of Admissions assesses whether the applicant may be granted admission to the programme.

To this end, the Board of Admissions assesses whether the applicant possesses sufficient knowledge, understanding and skills at the same level as a bachelor's degree or related bachelor's degree as referred to in 5.2.1, under (a) and (b). The Board may also impose further conditions.

The Board of Admissions assesses, where relevant, whether the applicant meets the qualitative selection requirements mentioned referred to in 5.2.4.

Article 5.2.3 **Dutch and English languages**

5.2.3.1 As further clarification of Article 2.8 concerning command of the language of instruction, a student who wishes to be admitted to an English-taught master's programme must have one of the following diplomas or must meet the criteria of:

- An International Baccalaureate diploma from a programme taught in English (or an IB diploma with English A)
- A diploma of secondary or higher education completed in Australia, Canada (with the exception of the French-language programmes in Canada), Germany, Ireland, Malta, New Zealand, Singapore, the United Kingdom, the United States or South Africa
- A diploma of an English-taught university degree programme completed at a Dutch research university;
- A pre-university education (VWO) diploma

5.2.3.2 If a student who wishes to be admitted does not meet the requirements in 5.2.3.1, at least one of the following language requirements can be set:

- IELTS 6.5
- TOEFL (internet-based) 90

The test result may not be older than two years at the time of enrolment for the programme.

5.2.3.3 As further clarification of Article 2.8 concerning command of the language of instruction, a student whose mother tongue is not Dutch and who wishes to be admitted to a Dutch-taught master's programme must have passed *TUL-gevorderd*. A Dutch as a Second Language Certificate (*Certificaat Nederlands als Vreemde Taal*) at *Educatief Startbekwaam* level is also sufficient to meet the language requirement. The *TUL-halfgevorderd* requirement can also be met with the State Examination NT2-II.

5.2.3.4 The language requirements in <5.2.3.1, with the exception of the 2nd and 3rd bullet point, and> 5.2.3.2 do not apply when a higher command of the language is required and included as a qualitative admission requirement (selection requirement) in Article 5.2.4. If a higher language requirement is included in Article 5.2.4, all students are required to fulfil this requirement.

Article 5.2.4 **Qualitative admission requirements (selection requirements)**

5.2.4.1 Not applicable

5.2.4.2 These qualitative admission requirements (selection requirements) will be measured or assessed according to the following method:

- Not applicable

5.2.4.3 Proof that the student meets the qualitative admission requirements (selection requirements) must be provided by the following deadline:

- Not applicable

Article 5.2.5 **Capacity limitation**

5.2.5.1 If the Executive Board has determined a maximum capacity for the programme, the order of admission will be determined by the qualitative admission requirements (selection requirements) as referred to in Article 5.2.4.1.

5.2.5.2 Where Article 5.2.5.1 applies, and a maximum capacity has been determined, the Board of Admissions will use the following the method of selection on the grounds of the selection criteria:

- Not applicable

5.2.5.3 Where article 5.2.5.1 applies, and a maximum capacity has been determined, the Board of Admissions will apply the following deadlines for selection:

- Not applicable

5.2.5.4 Where article 5.2.5.1 applies, and a maximum capacity has been determined, the Board of Admissions will weigh the selection requirements as follows:

- Not applicable

Article 5.3 **Deficiencies**

5.3.1 Holders of a bachelor's degree from a research university, a related university bachelor's diploma as referred to in 5.2.1, point b or an equivalent diploma with a maximum of 5 ECTS of deficiencies, may be admitted to the programme, as long as it may reasonably be expected that they will meet the entry requirements within a reasonable period of time.

5.3.2 Students who still have the deficiencies referred to in 5.3.1 when admitted to the programme may participate in the programme but may not sit any final examinations or examinations that the Faculty Board has specified in its decision to grant admission.

5.3.3 For the admission referred to in 5.3.1 the Board of Admissions assembles a catch-up programme with examination opportunities.

5.3.4 If students are admitted to the programme on the basis of 5.3.1 and must sit examinations to meet the entry requirements, these are not considered part of the curriculum of the master's programme.

Article 5.4 **Pre-master's programmes**

Not applicable

Chapter 6 Student Counselling and Study Advice

Article 6.1 **Study progress administration**

6.1.1 The Faculty Board keeps records of the results achieved by individual students.

6.1.2 Students may inspect their results in the study progress system at any time.

Article 6.2 **Introduction and student counselling**

The programme is responsible for the introduction and student counselling.

Article 6.3 **Supervision of the thesis/final paper/final report/final programme assignment**

6.3.1 The student draws up a plan for the thesis/final paper/final report as referred to in 3.3.2. This plan is based on the study load for this component, as specified in the Prospectus.

6.3.2 The plan referred to in 6.3.1 also specifies the frequency and manner of supervision.

Article 6.4 **Top-level sport**

Students who engage in top-level sport at a professional level are given the opportunity to adjust their study programme to their sporting activities wherever possible. The programme determines who falls within this category in line with the guidelines drawn up by the Executive Board.

Article 6.5 **Disability or chronic medical condition**

Where possible, students with a disability or chronic medical condition are given the opportunity to adjust their study programme to the limitations resulting from their disability or chronic medical condition. The study programme can be adjusted to the individual disability or chronic medical condition of the student in question, but this must not affect the quality or level of difficulty of the components or the final examination curriculum itself.¹⁴

Article 6.7 **Study and internships abroad**

Special measures will be taken for students who suffer from a demonstrable delay in their studies as a result of study or an internship abroad that has been approved by the Board of Examiners, in order to limit the delay.

Chapter 7 Evaluation of the Programme

Article 7.1 **Evaluation of the programme**

The education in the programme is evaluated as follows:

- Courses are evaluated annually in a variety of ways, with standard questionnaires and/or qualitative instruments, during and/or at the end of the course after the final test or the last meeting. The results of the standardized evaluations are discussed in the Research Master's Programme Committee. The Research Master's Programme Committee will advise the Programme Board about possible measures to improve quality. Course coordinators will inform students on changes made to the course, based on previous evaluations.
- The programme is evaluated among master students on an annual basis through a standardized evaluation form, possibly supplemented with qualitative measures. The results are discussed in a meeting between the Directors of Studies and Faculty Board, and in the Research Master's

¹⁴[Protocol on Studying with a Disability](#)

Programme Committee. The Programme Board will take measures to improve quality when needed.

The Programme Board/Programme Director will inform the Programme Committee about the outcomes of the evaluation.

Chapter 8 Final Provisions

Article 8.1 Amendments

8.1.1 Amendments to these regulations are adopted by a separate order of the Faculty Board, with the prior consent of the Faculty Council or the Programme Committee, depending on the topics concerned.

8.1.2 Amendments to these regulations which apply to a particular academic year must be adopted before the start of that year and published in the prescribed manner, unless earlier implementation of an amendment to the regulations is strictly necessary and, in all reasonableness, does not harm the students' interests.

8.1.3 Amendments to these regulations may not adversely affect any prior decision pertaining to students taken by the Board of Examiners on the basis of these regulations.

Article 8.2 Publication

The Faculty Board or Programme Board is responsible for publishing these regulations, the Rules and Regulations established by the Board of Examiners, and any amendments to these documents via the University website.

Article 8.3 Term of application

The Course and Examination Regulations apply for the duration of one academic year.

Article 8.4 Entry into force

These regulations enter into force on 1 September 2022.

Appendix 1: Programme Contents

1a. Compulsory Coursework

All students must follow the compulsory coursework (80 EC in total). It includes the following courses:

1. Responsible Research in Practice (5 EC, level 500)
2. Evaluating an Empirical Study (5 EC, level 500)
3. Applied Multivariate Data Analysis - Spring (5 EC, level 500)
4. Applied Multivariate Data Analysis - Fall (5 EC, level 500)
5. Experimentation I: Programming Psychological Experiments (5 EC, level 500)
6. Experimentation II: Neuroscientific research methods (5 EC, level 500)
7. Scientific Writing (5 EC, level 500)
8. Presenting Your Research (practical, 5 EC, level 500)
9. Thesis, including colloquiums (20 EC, level 600)
10. Research Internship (20 EC, level 600)

The remaining credits are divided between obligatory track specific courses (20 EC) see list below per track, and (track-specific) electives (20 EC). For more information on the electives offered, besides the ones offered by the specific tracks (specialisations), see the Course and Examination Regulations (OER) of the 1-year Master's Programme in Psychology and the Prospectus

1b. Track (Specialisation) Clinical and Health Psychology

Compulsory courses:

1. Research Topics in Health Promotion (5 EC, level 500)
2. Evaluating Interventions in Patients with Chronic Disease (5 EC, level 500)
3. Advanced Topics in Experimental Clinical Psychology (5 EC, level 500)
4. Biological Underpinnings of Psychopathology (5 EC, level 500)

1c. Track (Specialisation) Cognitive Neuroscience

Compulsory courses:

1. Cognitive Neuroscience of Action Control (5 EC, level 500)
2. Neuromodulation of Cognition (5 EC, level 500)
3. Social Cognitive Neuroscience (5 EC, level 500)
4. Reinforcement Learning and Decision Making: Neural and Computational Mechanisms (5 EC, level 500)

1d. Track (Specialisation) Developmental Psychology

Compulsory courses:

1. Developmental Cognitive Neuroscience (5 EC, level 500)
2. Current Research Practices in Cognitive Development (5 EC, level 500)
3. Developmental Psychophysiology and Psychopathology (5 EC, level 500)
4. (A)typical Emotional Development: Autism, Deafness and Somatisation (5 EC, level 500)

1e. Track (Specialisation) Social and Economic Psychology

Compulsory courses:

1. The Neuro-economics of Conflict and Cooperation (5 EC, level 500)
2. Improving Intergroup Perceptions (5 EC, level 500)
3. Social Judgment and Decision Making (5 EC, level 500)
4. Behavioural Economic Insights (5 EC, level 500)

1f. Elective on offer for all tracks:

Research Apprenticeship (5 EC, level 500) (in the first year of the programme.)

1g. Electives on offer for students with profile Brain and Cognition

From Master programme Education and Child Studies

1. Learning, cognition and the brain
2. Attachment, Parenting and Development: research, and clinical implications
3. Neuroscience (clinical assessment and treatment)
4. Child Abuse and Neglect: neurobiological aspects and intervention
5. Developmental Clinical Neuroscience

From Master programme Linguistics

6. Cognitive Neuroscience of Language

From Master programme Biomedical Sciences

7. Clinical Pharmacology
8. Imaging in Neurosciences
9. Translational Neurogenetics

From Master programme Computer Science

10. Evolutionary Algorithms
11. Bio-modeling
12. Reinforcement Learning

From Master programme Statistical Science for the Life and Behavioural Sciences

13. Bayesian Statistics

Master's programme Philosophy of Psychology

14. Philosophy of Mind (Dutch only)

Research master students who have relevant background knowledge in philosophy may contact the course coordinator to request admission to this course. Admission requests will be considered on an individual basis.

Appendix 2: Admission Procedure for the Master's Programme (research)

2.1 Applications for the master's programme should include:

1. A completed application form;
2. Certified copies of university certificates, degrees and diplomas. Translations into English are required.
3. A curriculum vitae which includes the contact data of two referees;
4. A detailed explanation of the curriculum vitae including the motivation and learning objective to participate in the MSc programme;
5. An IELTS score of 6.5. Or equivalent score¹⁵, the test may not be more than 2 years old;
6. Proof of payment of the application fee.

The Admissions Board advised by the staff will evaluate the application for admission in terms of the criteria set out in article 5.2 and decide upon the admission.

2.2 Applications for courses of the master's programme

Students from other master's programme at Leiden University, who want to add one of the courses of the MSc Psychology (research) to their programme, need the approval of the Study Advisor of this programme to enter a course. The Study Advisor will base the approval on the evaluation of the entry level of the student and the capacity of the course.

¹⁵ [English language proficiency – Master's programmes](#)

Appendix 3: Master's Thesis and Internship Regulations

3.1 Regulations for the Master's Thesis

The procedure for assessing the grades for master's thesis is part of the Prospectus and the Rules and Regulations from the Board of Examiners.

3.2 Regulations for the Internship

As part of the programme students need to do a mandatory internship of 20 credits. The criteria for the supervision and grading of internships are listed in the Prospectus.

Appendix 4: Regulations regarding the choice of Track and Courses from other tracks and specialisations

4.1 Choice of Track

In these Course and Examination Regulations the students are prohibited to choose more than one track. They are also prohibited to write more than one thesis or to do more than one internship, except students from the tracks Clinical and Health and Developmental Psychology, they have permission to add a second clinical internship.

4.2 Courses from other Tracks and Courses from the Specialisations of the one year MSc. in Psychology

A student can attend obligatory courses from all tracks from the MSc. in Psychology (research).

A student can only attend obligatory courses from the related specialisation¹⁶ from the MSc. in Psychology. If a student wants to attend obligatory courses of another specialisation, the student is permitted to do so if the student meets the following condition:

- The student has passed one year of study, i.e. two semesters from the MSc. in Psychology (research).
- In addition, the student has obtained the prerequisite advanced-level subject (that gives access to the other specialisation) or a positive decision by the study adviser authorised by the Board of Examiners. The student asks permission of the study adviser, who verifies that the student has met the relevant requirements. The additional courses will be added to the supplement.
- In addition, spots must be available. New incoming students have priority.

The following limitation applies: a student is permitted to write only one supervised thesis, and to do only one supervised internship, except students from the tracks Clinical and Health and Developmental Psychology, they have permission to add a second clinical internship.

Article 3.4.2. applies.

¹⁶Developmental Psychology & Child and Adolescent Psychology/School Psychology
Clinical and Health Psychology & Clinical Psychology/Health Psychology
Social and Economic Psychology & Social and Organisational Psychology / Economic and Consumer Psychology
Cognitive Neuroscience & Applied Cognitive Psychology
